FOREWORD

The National Institutes of Health (NIH) conducts and supports biomedical research to improve the health of the nation. In carrying out its mission, the NIH relies upon public advisory committees for counsel and critique with respect to both ongoing and proposed activities.

These committees of consultants are divided into two broad categories--scientific review groups and program advisory groups. The scientific review groups are composed exclusively of experienced investigators with highly developed expertise in specific scientific disciplines or medical specialty areas; the primary function of these committees is to determine the scientific merit of research grant applications and contract proposals. The program advisory groups comprise not only biomedical scientists but also leaders in such fields as education, law, social sciences, public health or public affairs; these committees provide the broad perspective on social needs that is essential to balanced and effective programs.

This publication presents in convenient form the authority, structure, functions, frequency of meetings, and membership of the NIH public advisory committees. The nation is fortunate that these outstanding citizens with such a wide variety of backgrounds and affiliations are willing to contribute to the guidance of Federal biomedical research programs.

EXPLANATORY NOTES

This publication contains descriptions and memberships of the public advisory committees in the National Institutes of Health, arranged by Bureau/Institute/Division served.

A public advisory committee, as defined by the General Administration Manual (Chapter 9, Committee Management) is any council, committee, board, panel, study section, or similar group, which includes one or more non-Federally employed persons. Members are appointed for overlapping terms of four years and the year the term expires is shown after the member's name.

The Table of Contents lists the committees by organizational structure. The two Indexes at the end of the publication list the committees and members alphabetically.

This publication was prepared by the Committee Management Office, National Institutes of Health, with the cooperation of the Division of Research Grants, Statistics and Analysis Branch.

ADDITIONAL INFORMATION

Additional information about nominating procedures and other aspects of NIH advisory groups may be obtained from the Committee Management Office. The address is:

Additional copies of this book are available from the Committee Management Office at the above address.

DESCRIPTION OF THE NIH PEER REVIEW SYSTEM

To accomplish its mission to improve human health through biomedical research, the National Institutes of Health (NIH) conducts and supports biomedical research projects designed to increase our understanding of the processes underlying human health, and to acquire new knowledge to help prevent, detect, diagnose, and treat disease. Because of the magnitude, diversity, and complexity of its research mission, the NIH draws for advice on the national pool of scientists actively engaged in research, in an effort to select meritorious research projects most relevant and likely to advance the programmatic goals of the NIH.

Organization of NIH Peer Review Groups

The various levels of peer review for both grant and contract projects have both statutory and regulatory bases. The first levels are performed by scientific review groups, established generally along lines of scientific disciplines or disease areas. Members of these groups are primarily non-Federal scientists selected by the NIH for their training, experience, and expertise in the particular scientific areas for which the pertinent group has review responsibilities. A principal requirement for serving on a scientific review group is competence as an independent investigator in a scientific or clinical discipline or research specialty. Assessment of that competence is based on the quality of research accomplishments, publications in refereed scientific journals, and other significant scientific activities, achievements, and honors. Usually a doctoral degree or its equivalent is required. Service also requires mature judgment, balanced perspective, objectivity, ability to work effectively in group contexts, commitment to accomplish work assignments, and assurance that the confidentiality of applications, proposals, discussions, and recommendations will be protected.

The second level of review for research grant applications is performed by a national advisory council or board (hereinafter referred to as a council) for each Bureau, Institute, or Division (Institute). These councils, sometimes as established by statute, are composed of twelve or more outstanding scientists and lay community leaders with demonstrated interest in the health program areas of the particular Institute. The mix of members brings to the grant review and award process their diverse knowledge and expertise in the relevant programmatic areas, familiarity with NIH procedures, and awareness and insights into the roles of various institutions in biomedical research and in serving the health needs of the American people. The councils also offer advice and recommendations on policy and other matters of significance to the missions and goals of the Institutes they serve.

In addition to these individual characteristics for peer review group membership, certain policy factors must also be considered, such as geographic distribution, and representation of ethnic minority and female scientists. Further, no two individuals from the same institution may be appointed to the same advisory group, an interval of one year must occur before reappointment to an NIH committee, and no member may be appointed to serve simultaneously on two chartered committees of the Department of Health and Human Services. Exceptions to these restrictions are rare and require approval by NIH and Department officials.

Review of Biomedical Research and Research Training Grant Applications

Scientific review of grant and cooperative agreement applications is performed by scientific review groups known also as initial review groups (IRGs). Most IRGs are managed by the Division of Research Grants, where they are referred to as study sections. Other IRGs are managed by the Institutes and have diverse review responsibilities, including multidisciplinary research and a variety of other specialized requests.

IRGs review applications for their scientific merit and significance, including such considerations as the (1) importance of the proposed research problem; (2) novelty, originality, and adequacy of the experimental approach; (3) training, experience, and research competence or promise of the investigator(s); (4) suitability of the facilities; and (5) reasonableness of the requested budget relative to the proposed work. Where appropriate, evaluations include judgments regarding protection of human subjects from research risks, animal welfare, and environmental hazards.

IRGs usually meet three times yearly, each meeting generally requiring two or three days of intensive review of research grant applications. Six to eight weeks before the meeting date the executive secretary, who is an NIH health scientist administrator, distributes copies of all the applications to the members, and assigns specific applications to each member to prepare written detailed critiques prior to the meeting and to lead the discussion on those applications at the meeting. All members read and contribute to the discussion on all applications reviewed at the meeting. Members also participate in project site visits when these are deemed necessary for adequate review of specific applications. They also survey, as scientific leaders, the status of research in their respective fields.

IRG recommendations are made by majority vote of the members. Applications recommended for approval are assigned a numerical rating by each IRG member, reflecting the member's opinion of the merits of the applications. The arithmetic average becomes the priority score for the application. IRGs may also recommend disapproval of applications they judge do not meet the criteria for approval, or when seriously hazardous or unethical procedures are involved. They may vote for deferral of applications needing additional information on which to base later recommendations.

Following the meetings, the executive secretary prepares summary statements for all applications. The summaries contain the recommendations, the priority scores for applications recommended for approval, and the reasons for the recommendations. These statements are forwarded to the appropriate Institutes for the next level of review, i.e., consideration by each unit's advisory council. The summary statement also is automatically sent to each applicant principal investigator following the IRG meeting.

For the second level of grant review, the national advisory councils generally meet three times yearly, for about three days each. Before the meeting, each council member receives copies of the IRG summary statements for the applications assigned to the Institute to which the council is advisory. Council members review these summary statements for scientific merit, and against a broad background of considerations that include the total pattern of biomedical research in universities and other institutions in this country and abroad; the need for the initiation of research in new areas; the degree of relevance of the proposed research to the missions of the Institutes; and other policy matters. The councils may have occasion to modify the recommendations of the IRGs in consideration of one or more of these factors.

Review of Research and Development Contract Projects

NIH research and development (R&D) contract projects generally are subjected to a many-stage review process prior to awards. For solicited contracts, scientific program advisory peer review committees suggest types of projects which should be undertaken by the NIH programs. Recommendations for types of projects are provided also through workshops, conferences, and similar advisory activities. The basic concepts for the planned projects are then translated by NIH program staff into specific requests for proposals which define the project work requirements and describe the criteria by which subsequent proposals will be evaluated.

Proposals submitted in response to these requests are reviewed and rated against the announced criteria by technical evaluation peer groups. Evaluations and ratings are used to establish a range of proposals that have a reasonable chance for award. Negotiation discussions and visits are held with the organizations that submitted those proposals. Best-and-final offers from those offerors are reviewed further by appropriate senior staff groups, who provide final recommendations to the Institute Directors. The staff groups obtain outside consultation as needed.

Variations on these processes are employed for the evaluation of unsolicited contract proposals, and for proposals responding to solicitations for R&D support contracts.

All evaluation, approval and award processes are conducted in accordance with requirements of Federal and HHS Acquisition Regulations.

OFFICE OF THE DIRECTOR

AD HOC WORKING GROUP TO DEVELOP RADIOEPIDEMIOLOGICAL TABLES
ADVISORY COMMITTEE TO THE DIRECTOR, NIH

AD HOC WORKING GROUP TO DEVELOP RADIOEPIDEMIOLOGICAL TABLES

AUTHORITY

Established by the Secretary August 4, 1983, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a, and chartered in accordance with P.L. 92-463. Unless renewed by appropriate action prior to its expiration, the committee will terminate May 15, 1985.

STRUCTURE

Consists of 8 members, including the chair. Members and chair shall be selected by the Secretary, or designee, from outstanding authorities in the fields of endocrinology, radiation biology and pathology, radioepidemiology, biostatistics, and radiobiology. Members shall be invited to serve until May 15, 1985.

FUNCTIONS

Section 7(b) of Public Law 97-414 directs the Secretary of Health and Human Services to devise and publish radioepidemiological tables that estimate the likelihood that persons with any radiation-related cancer who received specific radiation doses before the onset of the cancer developed the disease as a result of such exposure. It shall be the responsibility of the Ad Hoc Working Group to develop these tables, to assess the credibility, validity, and degree of certainty associated with such tables, and to compile the formulas that yielded the probabilities of causation listed in such tables. The Secretary shall update these tables and formulas every four years, or whenever necessary, to insure that they continue to represent the best available scientific data and expertise.

MEETINGS

Meetings shall be held approximately eight times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

ADVISORY COMMITTEE TO THE DIRECTOR, NIH

AUTHORITY

Originally established by the Director, NIH, May 9, 1966, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate May 31, 1985, unless renewed before that date.

STRUCTURE

Consists of the Director, NIH, who is designated as chair, and 16 members appointed by the Secretary, HHS, for overlapping terms of four years. Members are selected from authorities knowledgeable in one or more of the fields pertinent to the NIH mission, including biomedical and behavioral research, medical science, and biomedical communications, and from the general public. As necessary, the Director may form subcommittees composed entirely of members of the Committee.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, and the Director, NIH, on policy matters pertinent to NIH mission responsibilities in the conduct and support of biomedical and behavioral research, medical science, and biomedical communications. The Committee makes recommendations concerning program development, resource allocation, NIH administrative regulation and policies, and other specific or general aspects of NIH policy. In advising on issues, the Committee should be able to reflect a diversity of viewpoints, including perspectives of the biomedical and behavioral research community, academia, the medical profession, private sector research, and the general public.

MEETINGS

Meetings are held approximately three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

NATIONAL INSTITUTE ON AGING

NATIONAL ADVISORY COUNCIL ON AGING
AGING REVIEW COMMITTEE
BOARD OF SCIENTIFIC COUNSELORS, NIA
GERIATRICS REVIEW COMMITTEE

NATIONAL ADVISORY COUNCIL ON AGING

AUTHORITY

Established May 31, 1974, under section 462 of P.L. 93-296 (42 U.S. Code 289k-3). In accordance with P.L. 92-463, chartered December 20, 1974, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

The Council shall consist of the Secretary, or designee as chair, the following ex officio members: the Chief Medical Officer of the Veterans Administration, or representative; a medical officer designated by the Secretary of Defense; the Chairperson of the Aging Research Manpower Committee; Federal Council on Aging; and a member designated by the Commissioner of the Administration on Aging; 18 members appointed by the Secretary, 12 of whom shall be leaders in the fields of fundamental sciences, medical sciences, education, or public affairs, and six of whom shall be leading medical or scientific authorities skilled in aspects of the biological and the behavioral sciences relating to aging. Members are appointed for overlapping terms of four years, beginning November 1, and no member is eligible for reappointment to the same Council or another Council within one year after the end of his preceding term.

FUNCTIONS

Advises the Secretary, HHS, the Assistant Secretary for Health, the Director, NIH, and the Director, NIA, concerning applications for research grants relating to aging; applications for National Research Service Awards relating to research manpower projects on the aging process; and the special problems and needs of the aged, and recommends the approval of those projects which merit support. Consults with and advises the Director, NIH, and the Director, NIA, on matters relating to programs and activities in this area.

MEETINGS

Meetings are held three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

AGING REVIEW COMMITTEE

AUTHORITY

Originally established by the Director, NIH, on June 30, 1965, as the Aging Training Review Committee under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; name changed to Adult Development and Aging Research and Training Committee and restructured November 20, 1969. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Restructured and renamed Adult Development and Aging Research Committee June 30, 1973. Renewed and renamed by the Secretary January 4, 1975. This committee will terminate November 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 22 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in the fields of the basic biological, biomedical, psychological, and behavioral sciences and also knowledgeable about the relation of these sciences to aging processes and the problems and needs of the elderly.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NIA. Provides initial technical merit review of applications for grants-in-aid and for proposals for contracts. Forwards recommendations concerning applications to the National Advisory Council on Aging.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

AUTHORITY

Established and chartered by the Under Secretary March 18, 1976, in accordance with P.L. 92-463 under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate November 30, 1985, unless renewed before that date.

STRUCTURE

Consists of eight members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are authorities knowledgeable in the fields of cell biology, immunology, biochemistry, physiology, clinical medicine, behavioral sciences, endocrinology, and longitudinal studies.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, the Deputy Director for Science, NIH, the Director, NIA, and the Scientific Director, NIA, on the intramural research program through periodic meetings and visits to the Institute for assessment of the research in progress and of that in prospect, and evaluation of the productivity and quality of staff scientists.

MEETINGS

Meetings are held twice a year, as called by the chair, with the advance approval of a government official, who also approves the agenda. A government official is present at all meetings.

GERIATRICS REVIEW COMMITTEE

AUTHORITY

Established and chartered by the Secretary, June 12, 1984, in accordance with Public Law 92-463, under section 222 of the Public Health Service Act. This committee will terminate May 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in various areas of clinical and behavioral medicine, and/or epidemiology and are also knowledgeable in geriatrics, long term care, and/or medical curriculum development.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NIA. Provides initial scientific merit and technical review of research and training grant applications in support of clinical research and research-related activities which require geriatric or other clinical expertise and involvement, as well as research contract proposals utilizing specialized patient populations for clinical studies of aging diseases and processes.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

MICROBIOLOGY AND INFECTIOUS DISEASES RESEARCH COMMITTEE
RECOMBINANT DNA ADVISORY COMMITTEE

NATIONAL ADVISORY ALLERGY AND INFECTIOUS DISEASES COUNCIL

AUTHORITY

Originally established by the Surgeon General in December 1955 as authorized by section 432 of the Public Health Service Act, as amended, 42 U.S. Code 289b. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Secretary, or designee as chair, the Chief Medical Officer of the Veterans Administration or representative, and a medical officer designated by the Secretary of Defense, who serve as ex officio members; and fifteen members appointed by the Secretary, HHS, who are authorities knowledgeable in the fields of medical sciences--especially in the areas of immunology, immunologic and allergic diseases, and microbiology and infectious diseases--education, or public affairs. Ten of such fifteen are leading medical or scientific authorities outstanding in the study, diagnosis, treatment, or prevention of allergy, immunology, and infectious diseases. Members are appointed for overlapping terms of four years, beginning November 1, and are not eligible for reappointment to the same council or another council within one year after the end of their preceding terms. There shall be two standing subcommittees composed entirely of members of the parent body, the Allergy and Immunology Subcommittee and the Microbiology and Infectious Diseases Subcommittee.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NIAID, concerning the review of applications for grants-in-aid relating to research projects and grants and awards for research training activities in the fields of immunology, allergic and immunologic diseases, and microbiology and infectious diseases, and recommends to the Director, NIH, the approval of those projects or research and training activities which merit support. Surveys, as scientific leaders, the status of research in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

ALLERGY, IMMUNOLOGY, AND TRANSPLANTATION RESEARCH COMMITTEE

AUTHORITY

Originally established by the Director, NIH, December 3, 1964, as the Committee for Collaborative Research in Transplantation and Immunology, under section 222 of the Public Health Service Act, as amended 42 U.S. Code 217a; renamed the Transplantation and Immunology Committee, January 21, 1966; chartered January 4, 1973, in accordance with P.L. 92-463 by the Secretary; renewed and renamed the Transplantation Immunology Committee on June 24, 1976; renewed and renamed the Transplantation Biology and Immunology Committee June 30, 1977. Rechartered, merged with the Allergy and Clinical Immunology Research Committee; renamed the Allergy, Immunology, and Transplantation Research Committee June 30, 1981. This committee will terminate June 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, from authorities knowledgeable in the fields of allergy, clinical immunology, immunobiology, immunopathology, immunochemistry, immunogenetics and transplantation biology. There will be two standing subcommittees, composed entirely of members of the parent body, which will report to the parent body. The Allergy and Clinical Immunology Subcommittee shall be chaired by the chair of the parent body and shall be concerned with programs and projects in allergy, clinical immunology and immunopathology. The Transplantation Biology and Immunology Subcommittee shall be chaired by a member of that subcommittee and shall be concerned with programs and projects in immunobiology, immunogenetics, immunochemistry and transplantation biology.

FUNCTION

Advises the Secretary; the Assistant Secretary for Health; the Director, NIH; and the Director, NIAID, concerning programs and activities in the areas of allergy, clinical immunology, immunopathology, immunobiology, immunogenetics, immunochemistry, and transplantion biology. The Committee provides a primary review of grant applications and contract proposals for special research programs, including program projects and centers, institutional fellowships, conference proposals, and special developmental award programs in the aforementioned areas. Assesses progress, evaluates ongoing special programs of the NIAID, and advises on new program development in these areas.

MEETINGS

Meetings of the full committee and the subcommittees shall normally be held three times a year at the call of the chair, with the advance approval of a government official who shall also approve the agenda. A government official shall be present at all meetings.

MICROBIOLOGY AND INFECTIOUS DISEASES RESEARCH COMMITTEE

AUTHORITY

Originally established as the Vaccine Development Committee December 20, 1961, by the Assistant Secretary for Health and Scientific Affairs; restructured and renamed October 13, 1970, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary, name changed to Microbiology and Infectious Diseases Advisory Committee June 30, 1977. Renamed the Microbiology and Infectious Diseases Research Committee on June 30, 1983. This committee will terminate June 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 15 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are scientists knowledgeable in the fields of molecular biology, microbial chemistry, parasitology, virology, bacteriology, and infectious diseases.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NIAID, on the Institute's programs and activities in the broad areas of microbiology, including basic microbiology, and infectious diseases. These programs include sexually-transmitted diseases, enteric diseases, recombinant DNA research, hepatitis, influenza and other viral respiratory infections, mechanisms of resistance to antimicrobial agents, streptococcal disease and sequelae, biological regulation of vectors of human disease, immunology of parasitic infections, antiviral substances, hospital-associated infections, chronic and degenerative diseases of man of possible viral etiology, clinical virology, vaccine research and development, as well as general research and development programs in bacteriology, mycology, virology, rickettsiology, parasitology, microbial physiology, and genetics. Provides scientific and technical review of contract proposals as well as grants-in-aid for special research programs, including program projects and centers, institutional National Research Service Award programs, conference proposals, and special developmental award programs. Assesses progress and evaluates ongoing special programs of the NIAID in microbiology and infectious diseases, and advises on new program development in these areas.

MEETINGS

Meetings are usually held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

RECOMBINANT DNA ADVISORY COMMITTEE

AUTHORITY

Established and chartered by the Secretary, October 7, 1974, as the Recombinant DNA Molecule Program Advisory Committee, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. Renewed and renamed the Recombinant DNA Advisory Committee. This committee will terminate June 30, 1986, unless renewed before that date.

STRUCTURE

The Recombinant DNA Advisory Committee shall consist of 25 members, appointed by the Secretary or designee, at least fourteen of whom shall be selected from authorities knowledgeable in the fields of molecular biology or recombinant DNA research or in scientific fields other than molelcular biology or recombinant DNA research, and at least six of whom shall be persons knowledgeable in applicable law, standards of professional conduct and practice, public attitudes, the environment, public health, occupational health, or related fields. The Secretary shall designate the chair. There shall be subcommittees on Plants and Associated Organisms; Revision of the Guidelines; and Risk Assessment.

FUNCTION

The Recombinant DNA Advisory Committee shall advise the Secretary, the Assistant Secretary for Health, and the Director, NIH, concerning the current state of knowledge and technology regarding DNA recombinants and recommend guidelines to be followed by investigators working with recombinant DNA. The Director, NIH, must seek the advice of the Recombinant DNA Advisory Committee before taking certain actions.

MEETINGS

Meetings are held approximately four times a year, as called by the chair, who also shall approve the agenda. A government official is present at all meetings.

NATIONAL ARTHRITIS, DIABETES, AND DIGESTIVE AND KIDNEY DISEASES ADVISORY COUNCIL

AUTHORITY

Originally established as the National Advisory Arthritis and Metabolic Diseases Council by the Surgeon General in August 1950 as authorized by section 432 of the Public Health Service Act. Restructured and renamed May 19, 1972, and December 17, 1980, as amended, 42 U.S. Code 289c-1(a), section 434. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Secretary, or designee as chair, the Chief Medical Officer of the Veterans Administration or representative, and a medical officer designated by the Secretary of Defense, who serve as ex officio members; and eighteen members appointed by the Secretary, HHS, from leaders in fundamental and medical sciences, or public affairs, and from experts in arthritis, musculoskeletal and skin diseases; diabetes, endocrine and metabolic diseases; digestive diseases; and kidney, urologic and hematologic diseases. Within the Council there are established four subcommittees composed of members of the Council outstand- ing in the diagnosis, prevention, and treatment of these diseases and members who are leaders in the fields of education and public affairs. Members are appointed for overlapping terms of four years, beginning November 1, and no member is eligible for reappointment to the same council or another council within one year after the end of his preceding term.

FUNCTIONS

Consults with and advises the Secretary, HHS, the Assistant Secretary for Health, and the Director, NIH, concerning the review of applications for grants-in-aid relating to research projects, and grants and awards for research and training activities of the Institute, and recommends approval of those which merit support.

MEETINGS

Meetings are held three times a year as called by the chair, who also approves the agenda. A government official is present at all meetings.

AUTHORITY

Originally established by the Director, NIH, November 28, 1956; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate November 30, 1986, unless renewed before that date.

STRUCTURE

Consists of eight members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from leaders in basic and clinical medical sciences related to the research activities of the NIADDK.

FUNCTIONS

Provides expert advice to the Secretary, the Assistant Secretary for Health, the Director, NIH, the Director, NIADDK, and the Director, Division of Intramural Research, NIADDK, on intramural research programs through regularly scheduled visits to the laboratories for assessment of the research in progress and evaluation of productivity and performance of staff scientists.

MEETINGS

Meetings are held twice a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

NATIONAL ARTHRITIS ADVISORY BOARD

AUTHORITY

Established December 17, 1980, under section 437(a) of P.L. 96-538 (42 USC 289c-4). In accordance with P.L. 92-463, reestablished by the Secretary, HHS under 42 U.S. Code 217a on September 28, 1983. The Board shall terminate September 30, 1986, unless renewed before that date.

STRUCTURE

Consists of the Assistant Secretary for Health; the Director, National Institutes of Health; Director, National Institute of Arthritis, Diabetes, and Digestive and Kidney Diseases; Director, Centers for Disease Control; Veterans Administration chief medical director; a medical officer designated by the Department of Defense, (or designees); and the Division Director for Arthritis and Musculoskeletal and Skin Diseases, who serve as non-voting ex officio members, and eighteen members appointed by the Secretary. Twelve members shall be scientists, physicians, and other health professionals who represent specialties and disciplines relevant to arthritis; and six members from the general public who are knowledgeable with respect to arthritis, including one member who suffers from arthritis, and one member who is a parent of a person who suffers from arthritis. Of the appointed members, at least five are knowledgeable in health education, nursing, data systems, public information, or community program development. Members are appointed to serve for overlapping terms of four years.

There shall be five standing subcommittees, as follows: The Research Subcommittee, the Multipurpose Arthritis Centers Subcommittee, the Education Subcommittee, the Community Programs and Rehabilitation Subcommittee, and the Data and Epidemiology Subcommittee. Subcommittee members shall be composed of Advisory Board members and, as required, by non-member consultants with expertise in the particular areas addressed by each subcommittee.

FUNCTION

The National Arthritis Advisory Board shall review and evaluate the implementation of the current Arthritis Plan prepared under the National Arthritis Act of 1974; periodically update the plan; and for the purpose of assuring the most effective use and organization of resources respecting arthritis, advise and make recommendations to the Congress and the Secretary; and maintain liaison with other advisory bodies related to Federal agencies involved in the implementation of the plan, the Coordinating Committee for Arthritis, and with key non-Federal entities involved in activities affecting the control of arthritis. The Board shall submit an annual report to the Congress and to the Secretary. The annual report shall be made available to the public at the same time.

MEETINGS

Meetings shall be held not less than four times a year as called by the chair, or upon request of the Director of the Institute, with the advance approval of a government official who shall approve the agenda. A government official is present at all meetings.

NATIONAL CANCER ADVISORY BOARD

AUTHORITY

Originally established as the National Advisory Cancer Council in August 1937 by P.L. 244, 75th Congress. Renamed and restructured as The National Cancer Advisory Board by The National Cancer Act of 1971, under section 407, (42 U.S.C. 286b). In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Secretary of the Department of Health and Human Services; the Director, Office of Science and Technology Policy; the Director of the National Institutes of Health; the Chief Medical Officer of the Veterans' Administration; the Director of the National Institute for Occupational Safety and Health; the Director of the National Institute of Environmental Health Sciences; the Secretary of Labor; the Commissioner of the Food and Drug Administration; the Administrator of the Environmental Protection Agency; the Chairman of the Consumer Product Safety Commission (or their designees); and, a medical officer designated by the Secretary of Defense, who serve as ex officio members; and eighteen members appointed by the President. Not more than twelve of the appointed members shall be scientists or physicians and not more than eight of the appointed members shall be representatives from the general public and not less than five of the appointed members shall be individuals knowledgeable in environmental carcinogenesis (including carcinogenesis involving occupational and dietary factors). The scientists and physicians appointed to the Board shall be appointed from persons who are among the leading scientific or medical authorities outstanding in the study, diagnosis, or treatment of cancer or in fields related thereto. At least two of the physicians appointed to the Board shall be physicians primarily involved in treating individuals who have cancer. The ex officio members of the Board shall be nonvoting members. Appointed members hold office for overlapping terms of six years and are eligible for reappointment and may serve after the expiration of their terms until their successors have taken office. The President designates one of the appointed members to serve as chair for a term of two years. The Director, National Cancer Institute, designates a member of the staff of the Institute to act as Executive Secretary.

BIOMETRY AND EPIDEMIOLOGY CONTRACT REVIEW COMMITTEE

AUTHORITY

Established by the Director, NCI, December 5, 1967. Chartered in accordance with P.L. 92-463 February 7, 1973. Renewed under section 405 (a)(2) of the Public Health Service Act, 42 U.S.C. 286(a)(2). This committee will terminate September 15, 1986, unless renewed before that date.

STRUCTURE

Consists of 14 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from scientists knowledgeable in the fields of epidemiology, statistics, medical care, medical administration, cancer diagnosis and therapy, pathology, genetics, nutrition, occupational health, and automatic data processing.

FUNCTIONS

Provides advice to the Director, NCI, and the Directors of the cognizant operating Divisions concerning the technical merit review of all contracts relating to biometry, biostatistics, and epidemiology of cancer.

MEETINGS

Meetings are usually held three times a year as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BOARD OF SCIENTIFIC COUNSELORS, DIVISION OF CANCER BIOLOGY AND DIAGNOSIS

AUTHORITY

Originally established as the Board of Scientific Counselors, NCI, by the Director, NIH, November 26, 1956. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Renewed by the Director, NCI, and renamed the Board of Scientific Counselors, Division of Cancer Biology and Diagnosis, under section 404(b)(3) of the Public Health Service Act, 42 U.S.C. 285(b)(3). This committee will terminate September 15, 1986, unless renewed before that date.

STRUCTURE

Consists of 15 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in basic laboratory and clinical research fields related to the research activities of the National Cancer Institute.

FUNCTIONS

Provides advice to the Director, NCI, and the Director, Division of Cancer Biology and Diagnosis, on matters of scientific program policy, both present and future, and particularly from a long-range viewpoint, as they relate to the research programs of the Division of Cancer Biology and Diagnosis.

MEETINGS

Meetings are usually held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BOARD OF SCIENTIFIC COUNSELORS
DIVISION OF CANCER ETIOLOGY

AUTHORITY

Established by the Director, NCI, January 3, 1978, as the Board of Scientific Counselors, Division of Cancer Cause and Prevention. Chartered in accordance with P.L. 92-463. Renamed the Board of Scientific Counselors, Division of Cancer Etiology, on February 15, 1984. Renewed under section 404(b)(3) of the Public Health Service Act, 42 U.S.C. 285(b)(3). This committee will terminate September 15, 1985, unless renewed before that date.

STRUCTURE

Consists of 20 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in the field of carcinogenesis with emphasis on training and experience in biology, chemistry, biochemistry, virology, molecular biology, and epidemiology.

FUNCTION

Provides advice to the Director, NCI, and the Director, Division of Cancer Etiology, concerning scientific progress and policies, both present and future, as they relate to intramural and collaborative programs of the Division of Cancer Etiology.

MEETINGS

Meetings are held approximately three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BOARD OF SCIENTIFIC COUNSELORS, DIVISION OF CANCER TREATMENT

AUTHORITY

Originally established by the Director, NIH, as the Chemotherapy Advisory Committee on November 28, 1966. Renamed the Cancer Treatment Advisory Committee on November 21, 1972. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Restructured and renamed the Board of Scientific Counselors of the Division of Cancer Treatment on December 20, 1974, by the Director, NCI. Renewed under section 404(b)(3) of the Public Health Service Act, 42 U.S.C. 285(b)(3). This committee will terminate September 15, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NCI, for terms of up to four years. Members are selected from authorities knowledgeable in the fields of clinical cancer treatment, including surgery, radiotherapy, chemotherapy, and immunotherapy, as well as laboratory research in biology, chemistry, pharmacology, immunology, biochemistry, radiobiology, diagnostic imaging, radiation physics, and molecular biology.

FUNCTIONS

Provides advice to the Director, NCI, and the Director, Division of Cancer Treatment, concerning scientific program policy, progress and future direction of research programs, including both intramural and extramural research programs.

MEETINGS

Meetings are held approximately three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CANCER CENTER SUPPORT REVIEW COMMITTEE

AUTHORITY

Originally established by the Director, NCI, April 26, 1976, as the Cancer Center Support Grant Review Committee. Chartered in accordance with P.L. 92-463. Merged and renamed the Clinical Cancer Program Project and Cancer Center Support Review Committee, January 3, 1978. Committee separated and renamed the Cancer Center Support Review Committee on December 29, 1981, under section 405 (a)(2) of the Public Health Service Act, 42 U.S.C. 286 (a)(2). This committee will terminate September 15, 1985, unless renewed before that date.

STRUCTURE

Consists of 20 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in the fields of cancer center administration, medical, radiological and surgical oncology, cancer chemotherapy and other disciplines of relevance to the cancer problem.

FUNCTION

Provides advice to the Director, NCI, and the Director, Division of Extramural Activities, concerning the scientific merit review of applications for cancer center support grants.

MEETINGS

Meetings are held approximately three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CANCER CLINICAL INVESTIGATION
REVIEW COMMITTEE

AUTHORITY

Originally established by the Director, NIH, July 8, 1966, as the Cancer Chemotherapy Collaborative Clinical Trials Review Committee. Renamed the Cancer Clinical Investigation Review Committee and restructured April 24, 1968. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Renewed by the Director, NCI, under section 405(a)(2) of the Public Health Service Act, 42 U.S.C. 286(a)(2). This committee will terminate September 15, 1986, unless renewed before that date.

STRUCTURE

Consists of 24 members, including the chair, appointed by the Director, NCI, for overlapping terms of four years. Members are selected from authorities knowledgeable in the fields of medical oncology, surgery, radiotherapy, gynecologic oncology, pediatric oncology, pathology and biostatistics.

FUNCTIONS

Provides advice to the Director, NCI, and the Director, Division of Extramural Activities, concerning the scientific merit review of research cooperative agreement applications for the support of clinical trials and related areas of cancer research carried out by national multi-disease cooperative groups and pediatric intergroups.

MEETINGS

Meetings are held approximately three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CANCER CONTROL GRANT REVIEW COMMITTEE

AUTHORITY

Established by the Director, NCI, March 27, 1974. Chartered in accordance with P.L. 92-463. Renewed under section 405(a)(2) of the Public Health Service Act, 42 U.S.C. 286(a)(2). This committee will terminate September 15, 1985, unless renewed before that date.

STRUCTURE

Consists of 20 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in the field of cancer control; e.g., cancer epidemiology and biostatistics, cancer prevention, detection, diagnosis, treatment, rehabilitation, and continuing care; and education in cancer prevention and management strategies.

FUNCTION

Provides advice to the Director, NCI, and the Director, Division of Extramural Activities, on the technical merit of grant applications for projects in cancer control.

MEETINGS

Meetings are held approximately three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CANCER CONTROL INTERVENTION PROGRAMS
REVIEW COMMITTEE

AUTHORITY

Originally established by the Director, NCI, October 2, 1974, as the Cancer Control Supportive Services Review Committee and the Cancer Control Intervention Programs Review Committee. Chartered in accordance with P.L. 92-463. Renamed the Cancer Control Intervention Programs A and B Review Committees and rechartered September 23, 1976. Renamed the Cancer Control Prevention, Detection, Diagnosis, and Pretreatment Evaluation Review Committee and the Cancer Control Treatment, Rehabilitation, and Continuing Care Review Committee on July 28, 1977. Merged, renamed, and rechartered as the Cancer Control Intervention Programs Review Committee on September 8, 1978. Renewed under section 405(a)(2) of the Public Health Service Act, 42 U.S. Code 286(a)(2). This committee will terminate September 15, 1986, unless renewed before that date.

STRUCTURE

Consists of 24 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from scientists knowledgeable in the fields of prevention and detection; diagnosis and pretreatment evaluation; diet and nutrition; intervention therapy and program management; and treatment, rehabilitation and continuing care.

FUNCTIONS

Provides advice to the Director, NCI; the Director, Cancer Prevention and Control; and the Director, Division of Extramural Activities; on the technical merit of contract proposals submitted in the area of cancer control intervention.

MEETINGS

Meetings are held approximately six times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CANCER EDUCATION REVIEW COMMITTEE

AUTHORITY

Established by the Director, NCI, October 10, 1974 as the Clinical Cancer Education Committee. Chartered in accordance with P.L. 92-463. Renewed under section 405(a)(2) of the Public Health Service Act, 42 U.S. Code 286(a)(2). Renamed the Professional Oncology Education Review Committee on April 28, 1983. Renamed the Cancer Education Review Committee on February 15, 1984. This committee will terminate September 15, 1986, unless renewed before that date.

STRUCTURE

Consists of 15 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected for their recognized expertise in the fields of medicine, dentistry, nursing, public health, and education of the health professionals as they relate to cancer.

FUNCTIONS

Provides advice to the Director, NCI; the Director, Division of Extramural Activities; and the Director, Division of Cancer Prevention and Control; on the scientific merit of applications for grants submitted to the Cancer Education Program.

MEETINGS

Meetings shall be held approximately three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CANCER PRECLINICAL PROGRAM PROJECT REVIEW COMMITTEE

AUTHORITY

Originally established as the Cancer Special Program Advisory Committee by the Director, NIH, July 8, 1966. In accordance with P.L. 92-463 chartered, January 4, 1973, by the Secretary. Renewed by the Director, NCI, under section 405(a)(2) of the Public Health Service Act, 42 U.S. Code 286(a)(2). Renewed and renamed the Cancer Preclinical Program Project Review Committee. This committee will terminate September 15, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in the fields of carcinogenesis, chemotherapy, immunology, tumor biology, and viral oncology.

FUNCTIONS

Provides advice to the Director, NCI, and the directors of the divisions of NCI, concerning scientific and technical reviews of program project grant applications wherein the primary emphasis is in basic research, i.e., research not involving human patients.

MEETINGS

Meetings are held approximately three times a year, as called by the chair, with advance approval of a government official who also approves the agenda. A government official is present at all meetings.

STRUCTURE

Consists of 20 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in the fields of medical oncology, cancer chemotherapy, synthetic chemistry, biochemistry, pharmacology, pathology and other disciplines of relevance to clinical and laboratory cancer therapeutic research.

FUNCTION

Provides advice to the Director, NCI, and the directors of the divisions of NCI, concerning the merit review of applications for clinical and laboratory program project proposals, related cancer research programs and identifies areas for future emphasis and alternative approaches.

MEETINGS

Meetings are held approximately three times a year at the call of the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CLINICAL CANCER PROGRAM PROJECT REVIEW COMMITTEE

AUTHORITY

Originally established by the Director, NCI, April 26, 1976, as the Clinical Cancer Program Project Review Committee. Chartered in accordance with P.L. 92-463. Merged and renamed the Clinical Cancer Program Project and Cancer Center Support Review Committee, January 3, 1978, under section 405(a)(2) of the Public Health Service Act, 42 U.S.C. 286(a)(2). Committee separated and renamed the Clinical Cancer Program Project Review Committee on December 29, 1981. This committee will terminate September 15, 1985, unless renewed before that date.

STRUCTURE

Consists of 20 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in the fields of medical and surgical oncology, cancer chemotherapy, radiotherapy, radiation biology, viral oncology, immunology, pharmacology, pathology, and other disciplines of relevance to clinical cancer research.

FUNCTION

Provides advice to the Director, NCI, and the Director, Division of Extramural Activities, concerning the merit review of applications for program project grants.

MEETINGS

Meetings are held approximately three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CLINICAL TRIALS COMMITTEE

AUTHORITY

Established by the Director, NCI, April 15, 1975. Chartered in accordance with P.L. 92-463. Restructured and rechartered September 8, 1978. Renewed under section 405(a)(2) of the Public Health Service Act, 42 U.S. Code 286(a)(2). This committee will terminate September 15, 1986, unless renewed before that date.

STRUCTURE

Consists of 25 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities with broad experience in the fields of cancer treatment and knowledgeable in the design, conduct and analysis of clinical trials.

FUNCTIONS

Provides advice to the Director, NCI, and the Director, Division of Extramural Activities, concerning the scientific merit of proposals for contracts in the clinical testing of experimental therapeutic regimens for the treatment of cancer.

MEETINGS

Meetings are held approximately four times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

DEVELOPMENTAL THERAPEUTICS CONTRACTS REVIEW COMMITTEE

AUTHORITY

Established by the Director, NCI, June 26, 1981, under Title IV, Part A, 42 U.S. Code 286(a)(2); Section 405(a)(2) of the Public Health Service Act. Chartered in accordance with P.L. 92-463. This committee will terminate September 15, 1986, unless renewed before that date.

STRUCTURE

Consists of 30 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in the fields of molecular biology, biochemistry, pharmacology, clinical oncology, experimental therapeutics, medicinal chemistry, radiobiology, chemical synthesis, immunochemistry and immunobiology.

FUNCTION

Provides advice to the Director, NCI, and the Director, Division of Cancer Treatment, concerning the scientific merit review of proposals for contracts that will contribute to the development of chemotherapeutically useful anticancer agents and biological response modifiers through research.

MEETINGS

Meetings are held approximately six times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

ADVISORY COMMITTEE

AUTHORITY

Established by the Director, NCI, April 16, 1982, under Title IV, Part A, 42 U.S. Code 285(b)(3), section 404(b)(3) of the Public Health Service Act. Chartered in accordance with P.L. 92-463. This committee will terminate September 15, 1985, unless renewed before that date.

STRUCTURE

Consists of 12 members, including the chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in the fields of microbiology, human and molecular genetics, pathology, experimental biology, immunology, experimental therapeutics, biochemistry, virology, bacteriology, pharmacology, hematology, molecular biology, medical oncology, cellular biology, and cytogenetics.

FUNCTIONS

Provides advice to the Director, NCI concerning the merit and relevance to the Institute of research conducted by the contractor at the Facility, and reviews contractor science in the context of potential redundancy with National Cancer Institute intramural research.

MEETINGS

Meetings are held approximately twice a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

ASSESSMENTS COMMITTEE

AUTHORITY

Established by the Director, NCI, June 12, 1984, under 42 U.S. Code 286(a)(2); Section 405(a)(2) of the Public Health Service Act. Chartered in accordance with P.L. 92-463. This committee will terminate two years from the date of establishment unless renewed before that date.

STRUCTURE

Consists of 14 members including the Chair, appointed by the Director, NCI, for overlapping terms of up to four years. Members are selected from authorities knowledgeable in such fields as radioactive fallout dosimetry, environmental transport mechanisms of radionuclides, thyroid metabolism of iodine, effects of radiation on the thyroid, epidemiology-biostatistics, and risk assessment.

FUNCTIONS

Provides advice to the Director, NCI, and: (1) conducts scientific research and prepares analyses necessary to develop valid and credible assessments of the risks of thyroid cancer that are associated with thyroid doses of Iodine-131; (2) conducts scientific research and prepares analyses necessary to develop valid and credible methods to estimate the thyroid doses of Iodine-131 that are received by individuals from nuclear bomb fallout; (3) conducts scientific research and prepares analyses necessary to develop valid and credible assessments of the exposure to Iodine-131 that the American people received from the Nevada atmospheric nuclear bomb tests; and (4) prepares and transmits to the Congress a report with respect to the activities conducted in carrying out the above.

MEETINGS

Meetings are held approximately twice a year as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

PRESIDENT'S CANCER PANEL

AUTHORITY

Established by the Congress December 23, 1971. In accordance with P.L. 92-463, chartered by the Secretary, March 2, 1973. Current authority is codified in section 408 of the Public Health Service Act, 42 U.S. Code 286c. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of three members, including the chair, appointed by the President, who by virtue of their training, experience and background are exceptionally qualified to appraise the National Cancer Program. At least two of the members are distinguished scientists or physicians. Members are appointed for three year terms, the President shall designate one of the members to serve as chair for a term of one year. Any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed shall be appointed only for the remainder of such term.

FUNCTIONS

The Panel monitors the development and execution of the National Cancer Program and submits periodic progress reports on the Program to the President. In addition, the Panel annually evaluates the efficacy of the Program and makes suggestions for improvements, and shall submit such other reports as the President shall direct.

MEETINGS

The Panel meets at the call of the chair, with the approval of a government official, not less often than four times a year. A government official is present at all meetings.

NATIONAL ADVISORY CHILD HEALTH AND HUMAN DEVELOPMENT COUNCIL

AUTHORITY

Originally established by the Surgeon General January 6, 1963, with the approval of the Secretary, as authorized by section 443 of the Public Health Service Act, as amended, 42 U.S. Code 289f. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Secretary or designee as chair, the Chief Medical Officer of the Veterans Administration or representative, a medical officer designated by the Secretary of Defense, a member designated by the Commissioner, Administration for Children, Youth and Families, and a representative from the Division of Maternal and Child Health, Bureau of Health Care Delivery and Assistance, who serve as ex officio members; and fifteen members selected by the Secretary, HHS, from authorities knowledgeable in the fields of obstetrics, gynecology, pediatrics, perinatology, genetics, reproductive biology, developmental biology, physiology, biochemistry, endocrinology, nutrition, psychiatry, child development, behavioral sciences, demography, and public affairs. Members are appointed for overlapping terms of four years, beginning November 1, and are not eligible for reappointment to the same council or another council within one year after the end of their preceding terms. There shall be a Council Subcommittee on Planning consisting of five members of the parent group.

FUNCTIONS

Consults with and advises the Secretary, HHS, the Assistant Secretary for Health, the Director, NIH, and the Director, National Institute of Child Health and Human Development, concerning (1) applications for grants-in-aid relating to research projects and (2) applications for national research service awards, and grants to make such awards, in the fields of child health and human development, and recommends the approval of those projects which merit support. Recommends to the Director, NIH, regarding the acceptance of conditional gifts pursuant to section 501 of the Public Health Service Act.

MEETINGS

Meetings are held three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate June 30, 1986, unless renewed before that date.

STRUCTURE

Consists of nine members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in the fields of developmental neurobiology, developmental pharmacology, cell biology and metabolism, comparative ethology, and psychology, reproductive endocrinology, molecular genetics, developmental endocrinology, human genetics, developmental and molecular immunity, theoretical and physical biology, and neurochemistry and neuroimmunology.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, the Director, and Scientific Director, National Institute of Child Health and Human Development, concerning the intramural research program through periodic visits to the Institute for assessment of the research in progress and of that in prospect, and evaluation of the productivity and quality of staff scientists.

MEETINGS

Meetings are held twice a year, as called by the chair, with the advance approval of a government official, who also approves the agenda. A government official is present at all meetings.

MATERNAL AND CHILD HEALTH RESEARCH COMMITTEE

AUTHORITY

Established by the Director, NIH, June 30, 1965, as the Child Development and Mental Retardation Training Review Committee, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. Name changed to Growth and Development Research and Training Committee and restructured November 30, 1969. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Rechartered, merged with the Perinatal Biology and Infant Mortality Research and Training Committee and renamed the Maternal and Child Health Research Committee June 30, 1973. This committee will terminate June 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in the fields of pediatrics, obstetrics, gynecology, developmental biology, experimental psychology, developmental psychology, nutrition, pathology, endocrinology, biostatistics, epidemiology, perinatal biology, physiology, immunology, biochemistry, psycholinguistics, psychophysiology, metabolism, reading, speech perception, perceptual and cognitive development, sociology, reproductive physiology, genetics, and perinatology.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NICHD, concerning research in pregnancy, infancy, developmental biology, nutrition, genetics, human learning, and behavior. Also reviews applications for program project grants, major research program grants, and national research service awards relating to research and manpower in the fields of pregnancy, infancy, developmental biology, nutrition, and human learning, and behavior, and forwards recommendations to the National Advisory Child Health and Human Development Council. Also responsible for concept clearance review of contract projects in the Endocrinology, Nutrition, and Growth Branch, Pregnancy and Perinatology Branch, Genetics and Teratology Branch, and Human Learning and Behavior Branch of the Center for Research for Mothers and Children.

MEETINGS

Meetings are held three times a year as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

MENTAL RETARDATION RESEARCH COMMITTEE

AUTHORITY

Originally established by the Director, NIH, June 22, 1968, as the Mental Retardation Research and Training Committee, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Restructured and renamed June 30, 1973. This committee will terminate June 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 15 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in the fields of academic and research administration, biochemistry, genetics, neurology, neurosciences, pediatrics, psychology, sociology, speech pathology and audiology, and obstetrics and gynecology as they apply to mental retardation.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NICHD, on research in mental retardation. Reviews applications for center grants, program project grants, and national research service awards relating to research and manpower in the field of mental retardation and forwards recommendations to the National Advisory Child Health and Human Development Council. Also responsible for concept clearance review of contract projects in the Mental Retardation and Developmental Disabilities Branch of the Center for Research for Mothers and Children.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

POPULATION RESEARCH COMMITTEE

AUTHORITY

Originally established by the Assistant Secretary for Health and Scientific Affairs, November 20, 1969, as the Population Research and Training Committee, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Renamed and restructured June 30, 1973. This committee will terminate June 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 15 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in the fields of sociology, cell ultrastructure, male reproductive physiology, obstetrics/gynecology/reproduction, neuroendocrinology, reproductive biology, demography, reproductive endocrinology, reproductive biochemistry, reproductive molecular biology, research administration, economics, and female reproduction.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NICHD, on research in population sciences and reviews applications for center grants, program project grants, and national research service awards in the field of population sciences and forwards recommendations to the National Advisory Child Health and Human Development Council. Advises on existing or developing shortages of trained manpower in reproduction and population research. Also advises on population problems amenable to solution by multidisciplinary research programs and on respective roles of biomedical and behavioral social research in the solution of population problems.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

DENTAL RESEARCH PROGRAMS ADVISORY COMMITTEE
NIDR SPECIAL GRANTS REVIEW COMMITTEE

NATIONAL ADVISORY DENTAL RESEARCH COUNCIL

AUTHORITY

Originally established in June 1948 by P.L. 755, 80th Congress, section 217(a) of the Public Health Service Act, as amended, 42 U.S. Code 218, 288a, and 288c. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Secretary or designee as chair, the Chief Medical Officer of the Veterans Administration or a representative, and a medical or dental officer designated by the Secretary of Defense, who serve as ex officio members; and twelve members appointed by the Secretary, who are leaders in the fields of fundamental sciences, dental and medical sciences, education, or public affairs. Six of such twelve are leading dental, medical or scientific authorities outstanding in the study, diagnosis, or treatment of dental diseases, and conditions, and at least four of the six shall be dentists. Members are appointed for overlapping terms of four years, beginning November 1, and are not eligible for reappointment to the same council or another council within one year after the end of their preceding terms.

FUNCTIONS

The council advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NIDR, regarding applications for grants-in-aid relating to research projects and grants and awards for research training activities in the field of dental and oral diseases and conditions, and recommends to the Director, NIH, on matters relating to programs and activities in this area. Makes recommendations to the Director, NIH, with respect to the acceptance of conditional gifts pursuant to Section 501 of the Public Health Service Act.

MEETINGS

Meetings are held three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

AUTHORITY

Originally established by the Director, NIH, November 26, 1956; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate November 30, 1985, unless renewed before that date.

STRUCTURE

Consists of eight members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are leaders in the basic and clinical sciences related to the research activities of the NIDR.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, the Deputy Director for Science, NIH, the Institute Director, and the Director of Intramural Research, NIDR, on the intramural research programs through periodic visits to the laboratories for assessment of the research in progress and evaluation of productivity and performance of staff scientists.

MEETINGS

Meetings are held approximately twice a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

AUTHORITY

In accordance with P.L. 92-463, established and chartered by the Secretary, May 5, 1979, by restructuring the Dental Caries Program Advisory Committee and the Periodontal Diseases Advisory Committee; under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate November 30, 1985, unless renewed before that date.

STRUCTURE

Consists of sixteen members, including the chair, appointed for overlapping terms of four years. Members are selected from outstanding authorities in the disciplines related to the prevention and control of oral diseases and conditions.

FUNCTIONS

Provides advice to the Secretary, the Assistant Secretary for Health, the Director, NIH, the Director and the Associate Director for Extramural Programs, NIDR, on scientific and other aspects of research programs on the causes, nature, diagnosis, treatment and prevention of oral diseases and conditions.

MEETINGS

Meetings are held twice annually, at the call of the chair, with the advance approval of a government official, who also approves the agenda. A government official is present at all meetings.

SPECIAL GRANTS REVIEW COMMITTEE

AUTHORITY

Originally established as the Dental Research Institutes and Special Programs Advisory Committee, September 16, 1966, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; restructured December 14, 1967; abolished May 3, 1973; reestablished December 26, 1973, and renamed in May 1978. This committee will terminate November 30, 1985, unless renewed before that date.

STRUCTURE

Consists of twelve members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are leaders and outstanding authorities from the fields of dental, medical, and fundamental sciences as well as academic and public administration.

FUNCTIONS

Provides scientific merit review of applications for support of dental research centers and other special grant programs and makes recommendations to the National Advisory Dental Research Council. Provides advice to the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NIDR on general policy and procedures as related to special grant programs. Considers and reviews long-range planning and broad program objectives and evaluates progress of ongoing special programs.

MEETINGS

Meetings are held three times a year, at the call of the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

Originally established as the Environmental Health Program Advisory Committee by the Director, NIH, November 30, 1966, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; reestablished March 18, 1967, as the Environmental Health Sciences Advisory Committee by the Surgeon General, with the approval of the Secretary; renamed the National Advisory Environmental Health Sciences Council December 16, 1971. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Secretary or designee as chair, and fifteen members who are leaders in the field of fundamental sciences, medical sciences or public affairs, and two ex officio members who represent the Environmental Protection Agency and the Food and Drug Administration. Eleven of the members are leading medical or scientific authorities trained in toxicology, pharmacology, epidemiology, pathology, biochemistry, etc., knowledgeable in environmental health sciences, with special interest and understanding in how environmental contaminants (toxicants) adversely affect human health. Four members are representatives of the general public with interests in public affairs, medical and environmental sciences. Members are appointed by the Secretary, HHS, for overlapping terms of four years, beginning November 1, and are not eligible for reappointment to the same council or another council, within one year after the end of their preceding terms. Members may continue to serve until their replacements have been appointed. There is a standing subcommittee on Environmental Health Sciences Centers, composed entirely of members of the parent body.

FUNCTIONS

Reviews applications for grants-in-aid relating to research projects and for grants and awards for research and training activities in the environmental health sciences, and recommends to the Director, NIH, approval of those projects which merit support. Consults with and advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Institute Director, on matters relating to programs and activities in the area of environmental health sciences. Recommends to the Director, NIH, regarding acceptance of conditional gifts pursuant to section 501 of the Public Health Service Act.

MEETINGS

Meetings are held three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

AUTHORITY

Originally established by the Director, NIH, October 30, 1968, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of eight members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are leaders in the basic and clinical sciences related to the research activities of the National Institute of Environmental Health Sciences.

FUNCTIONS

Provides expert advice to the Secretary, the Assistant Secretary for Health, the Director, NIH, the Director and Scientific Director, NIEHS, on matters of scientific program both present and future, and particularly from a long-range viewpoint, as they relate to the intramural research programs in environmental health sciences.

MEETINGS

Meetings are held twice a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

ENVIRONMENTAL HEALTH SCIENCES REVIEW COMMITTEE

AUTHORITY

Established and chartered by the Secretary, HHS, January 12, 1981, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate November 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 21 member, including the chair, appointed by the Director, NIH for overlapping terms of four years. Members are leaders in the basic and clinical sciences which are of primary importance in the review of environmental health research and manpower needs, e.g., toxicology, pharmacology, pathology, epidemiology, and biochemistry. Three standing subcommittees, composed entirely of members of the parent committee are the Centers and Program Projects Subcommittee, Training Subcommittee, and Contracts Subcommittee.

FUNCTIONS

Reviews program projects, core center, career developmental and training grant applications for support of programs on the effect of the environment on man's health for the National Institute of Environmental Health Sciences Council, the Director, NIH, and the Director NIEHS. Reviews contract proposals for the Director, NIEHS and the Director, National Toxicology Program.

MEETINGS

Meetings of the subcommittees are held three times a year, the full committee as necessary, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

NATIONAL ADVISORY EYE COUNCIL
BOARD OF SCIENTIFIC COUNSELORS, NEI
VISION RESEARCH PROGRAM COMMITTEE

NATIONAL ADVISORY EYE COUNCIL

AUTHORITY

Originally established by the Secretary, January 18, 1969, as authorized by section 452 of the Public Health Service Act, as amended, 42 U.S. Code 289j. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be renewed every two years.

STRUCTURE

Consists of the Secretary or designee as chair, the Chief Medical Officer of the Veterans Administration or a representative, and a medical officer designated by the Secretary of Defense, who serve as ex officio members; and twelve members selected by the Secretary, from authorities knowledgeable in the fields of fundamental sciences, medical sciences, education, or public affairs, as well as representatives of the general public. Eight of such twelve are leading medical or scientific authorities outstanding in the study, diagnosis, or treatment of blinding eye diseases and visual disorders. Members are appointed for overlapping terms of four years, beginning November 1, and are not eligible for reappointment to the same council or another council within one year after the end of their preceding terms. There shall be a standing subcommittee of the Council, the Vision Research Program Planning Subcommittee, composed entirely of members of the parent body.

FUNCTIONS

Reviews applications for grants-in-aid relating to research projects in the field of eye disease and the visual system, and recommends to the Director, NIH, the approval of those projects which merit support. Develops reports on vision research program planning to guide the national effort toward better understanding of the cause, prevention, and treatment of visual system disorders. Reviews projects to be supported by contract prior to solicitation of proposals from the scientific community. Makes recommendations to the Secretary, the Assistant Secretary for Health, and the Director, NIH, on matters relating to diagnosis, prevention, and treatment of visual disorders, and to the mechanism of sight and the visual function. Recommends to the Director, NIH, regarding acceptance of conditional gifts pursuant to section 501 of the Public Health Service Act.

MEETINGS

Meetings are held three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

BOARD OF SCIENTIFIC COUNSELORS, NEI

AUTHORITY

Originally established by the Assistant Secretary for Health and Scientific Affairs, August 3, 1970, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Restructured June 30, 1973. This committee will terminate May 31, 1985, unless renewed before that date.

STRUCTURE

Consists of six members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from leaders in basic and clinical medical sciences related to the research activities of the National Eye Institute.

FUNCTIONS

Provides advice to the Director, NIH and the Director, NEI, through periodic visits to the laboratories for assessment of the research in progress and evaluation of productivity and performance of staff scientists.

MEETINGS

Meetings are held twice a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

VISION RESEARCH PROGRAM COMMITTEE

AUTHORITY

Originally established by the Director, NIH, September 1, 1953, as the Ophthalmology Postgraduate Training Grant Committee in the National Institute of Neurological Diseases and Blindness; renamed the Vision Research Training Committee July 19, 1960; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; transferred to the National Eye Institute July 9, 1969; renamed the Vision Research and Training Committee March 13, 1970. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Renamed and restructured June 30, 1973. This committee will terminate May 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in basic and clinical medical sciences related to the research activities of the National Eye Institute.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, National Institutes of Health and the National Advisory Eye Council. Reviews research grant applications for support of broad interdisciplinary programs on, and research manpower development related to, the causes, natural history, prevention, diagnosis, and treatment of blinding eye diseases and visual disorders, and makes recommendations to the Director, NIH, and to the National Advisory Eye Council.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

NATIONAL ADVISORY GENERAL MEDICAL SCIENCES COUNCIL

AUTHORITY

Originally established by the Surgeon General January 6, 1963, with the approval of the Secretary, as authorized by section 443 of the Public Health Service Act, as amended, 42 U.S. Code 289f. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Secretary or designee as chair, the Chief Medical Officer of the Veterans Administration or a representative, and a medical officer designated by the Secretary of Defense, who serve as ex officio members, and twelve members appointed by the Secretary, HHS, from authorities knowledgeable in the fields of fundamental sciences, medical sciences, education, or public affairs. Eight of such twelve are leading authorities in the fields of general or basic medical sciences, or related natural or behavioral sciences. Members are appointed for overlapping terms of four years, beginning November 1, and are not eligible for reappointment to the same council or another council within one year after the end of their preceding term. Members may serve after the expiration of their terms until their successors have taken office.

FUNCTIONS

Provides second level scientific review for grants-in-aid relating to research projects and grants and awards for research and research training activities in the basic biomedical fields of cellular and molecular biology, biochemistry, genetics, pharmacology, and physiology and biomedical engineering. It also reviews applications in certain clinical areas related to research in anesthesiology and the mechanisms underlying the total body response to severe trauma and burn injury. Recommends to the Secretary, the Assistant Secretary for Health, and the Director, NIH, the approval of those projects which merit support, and advises on matters relating to basic medical sciences. As scientific and professional leaders, the members survey the status of research relating to basic biomedical and certain clinical sciences.

MEETINGS

Meetings are held three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

CELLULAR AND MOLECULAR BASIS OF DISEASE REVIEW COMMITTEE

AUTHORITY

Established and chartered by the Secretary, November 15, 1976, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; and in compliance with P.L. 92-463. This committee will terminate November 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 14 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in the fields of cellular, molecular and developmental biology; the disciplines of biochemistry, biophysics, microbiology, pathology, physiology, and genetics; and the chemical and physical sciences which are directly relevant to the review function of this committee.

FUNCTION

Provides the initial scientific and technical merit review of applications for grants-in-aid for National Research Service Awards in the areas of cellular and molecular biology, pathobiology, and combined M.D./Ph.D. programs in the medical sciences, and for research projects, particularly large grant applications such as for research centers, program projects, and others as appropriate, and makes recommendations concerning the scientific merit of these applications to the National Advisory General Medical Sciences Council. As scientific leaders, the members survey the research field and assess the status and needs of this area for the Secretary; the Assistant Secretary for Health; the Director, NIH; and the Director, National Institute of General Medical Sciences.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

GENETIC BASIS OF DISEASE REVIEW COMMITTEE

AUTHORITY

Originally established and chartered by the Assistant Secretary for Health January 3, 1973, as the Mammalian Cell Lines Committee under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; and in compliance with P.L. 92-463. Renewed and renamed the Genetic Basis of Disease Review Committee. This committee will terminate November 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 13 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in the fields of somatic cell genetics, clinical genetics, population genetics, molecular genetics, developmental genetics, bacterial genetics, animal cell virology, cytogenetics, immunogenetics, biochemical genetics, nucleic acid and chromosome structure, and the genetics of lower eucaryotes. These members contribute directly to the review function of this committee.

FUNCTIONS

Provides the initial scientific and technical merit review of applications for grants-in-aid for genetic research projects, particularly research centers, program projects, and others as appropriate, and for National Research Service Awards relating to the field of genetics. Assesses the scientific merit of these applications and makes recommendations to the National Advisory General Medical Sciences Council. As scientific leaders, the members survey the research field and assess the status and needs of this area for the Secretary; the Assistant Secretary for Health; the Director, National Institutes of Health; and the Director, National Institute of General Medical Sciences.

MEETINGS

Meetings are held three times a year as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

MINORITY ACCESS TO RESEARCH CAREERS REVIEW COMMITTEE

AUTHORITY

Established and chartered by the Secretary, April 25, 1975, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a, and in accordance with P.L. 92-463. This committee will terminate November 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 12 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in the areas of biological, chemical, physical, and behavioral sciences, who can contribute directly to the review function of this committee.

FUNCTIONS

Provides the initial scientific and technical merit review of grant applications particularly for National Research Service Awards relating to the Minority Access to Research Careers (MARC) Program, and makes recommendations to the Secretary; the Assistant Secretary for Health; the Director, NIH; and the Director, National Institute of General Medical Sciences. As scientific leaders, the members survey the research training field and assess the status and needs of biomedical sciences education for minority group students at the pregraduate and graduate levels. Reviews related activities covering the development of minority group institutions and the achievement of the goals and objectives of the MARC program for the National Institute of General Medical Sciences.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

PHARMACOLOGICAL SCIENCES REVIEW COMMITTEE

AUTHORITY

Originally established by the Assistant Secretary for Health and Scientific Affairs, July 1, 1970, as the Pharmacology-Toxicology Research Program Committee by combining the Pharmacology and Toxicology Training Committee and the Pharmacology/Toxicology Review Committee, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Renewed and renamed the Pharmacology/Toxicology Review Committee in 1978; and the Pharmacological Sciences Review Committee in 1980. This committee will terminate November 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from the several areas of pharmacology and experimental therapeutics (clinical, biochemical, or molecular pharmacology), neuropharmacology, pharmacogenetics, pharmacokinetics, immunopharmacology, anesthesiology, organic and medicinal chemistry, or any biomedical discipline which can contribute directly to the necessary expertise of this committee.

FUNCTIONS

Provides the initial scientific and technical merit review of applications for grants-in-aid for the support of pharmacological sciences and anesthesiology research projects, particularly research centers, program projects, and others as appropriate and for National Research Service Awards relating to the fields of pharmacology and anesthesiology. Assesses the scientific and technical merit of these applications and makes recommendations to the National Advisory General Medical Sciences Council. As scientific leaders, survey the research fields and assess the status and needs of these areas for the Secretary; the Assistant Secretary for Health; the Director, National Institutes of Health; and the Director, National Institute of General Medical Sciences.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

NATIONAL HEART, LUNG, AND BLOOD ADVISORY COUNCIL

AUTHORITY

Originally established June 16, 1948 as the National Advisory Heart Council by P.L. 80-655, section 217 of the Public Health Service Act, as amended; 42 U.S. Code 218. Name changed to National Advisory Heart and Lung Council by the Secretary, January 7, 1970. Reestablished as the National Heart and Lung Advisory Council September 19, 1972, by P.L. 92-423, section 417 of the Public Health Service Act, as amended; 42 U.S. Code 287f. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Name changed to National Heart, Lung, and Blood Advisory Council April 22, 1976, by P.L. 94-278. Duration is continuing; biennially rechartered.

STRUCTURE

The Council shall be composed of 23 members, including the Secretary or designee as chair, the Director of the NIH, the Director of the office Science and Technology Policy, the Chief Medical Officer of the Veterans Administration (or their designees), and a medical officer designated by the Secretary of Defense as ex officio members; and 18 members appointed by the Secretary. Eleven of the appointed members are selected from leading medical or scientific authorities who are skilled in the sciences related to diseases of the heart, blood vessels, lungs, and blood; two members are selected from physicians enrolled in residency programs providing training in heart, blood vessel, lung, and blood diseases; and five members are from the general public. Members are appointed for overlapping terms of four years, beginning November 1, and are not eligible for reappointment to the same or another council within one year after the end of their preceding terms. Members may continue to serve until their replacements have been appointed. The Council has two standing subcommittees related to grant review and composed entirely of members of the parent body: (1) the Research Subcommittee and (2) the Manpower Subcommittee.

FUNCTIONS

Reviews applications for grants-in-aid related to research and research training in heart, blood vessel, lung, and blood diseases and blood resources, and recommends the approval of projects that merit support. Advises regarding the National Heart, Blood Vessel, Lung, and Blood Diseases Program. Recommends areas of research to be supported by contracts and the percentage of the budget to be expended for contracts. Collects and disseminates pertinent information on research. Recommends regarding the acceptance of conditional gifts pursuant to section 501 of the Public Health Service Act. Submits an annual report to the Secretary, for simultaneous transmittal to the President and the Congress, on the progress of the Program toward the accomplishment of its objectives. Advises on establishment of prevention and control programs and National Research and Demonstration Centers.

MEETINGS

Meetings are held at least four times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

ARTERIOSCLEROSIS, HYPERTENSION AND LIPID METABOLISM ADVISORY COMMITTEE

AUTHORITY

In accordance with P.L. 92-463, established and chartered by the Secretary, June 30, 1979, by restructuring the Arteriosclerosis and Hypertension Advisory Committee and the Lipid Metabolism Advisory Committee; under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate June 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 19 members, including the chair and vice chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from representatives of various basic science and clinical disciplines for their special knowledge relevant to programs of research, demonstration and training in arteriosclerosis, lipid metabolism, hypertension and cognate areas.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Directors, NIH, NHLBI, Division of Heart and Vascular Diseases, on the planning, execution and evaluation of the Institute's extramural programs, including those relating to grants, contracts, specialized centers of research, and research and demonstration centers in the general areas of lipid metabolism and the etiology and pathogenesis of arteriosclerosis and of hypertension. Advises and assists in scientific design and review of current programs, particularly with regard to content, relevance to the appropriate portions of the Institute's National Heart, Blood Vessel, Lung, and of Blood Program and cost. Also identifies and evaluates future research needs and opportunities and programs in these areas.

MEETINGS

Meetings are usually held four times a year as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

AUTHORITY

In accordance with P.L. 92-463, established and chartered by the Secretary, September 30, 1974, by restructuring the National Blood Resource Program Advisory Committee and the Thrombosis Advisory Committee; under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate June 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in disciplines related to the fields of thrombosis and hemostasis, disorders of the red blood cell and related diseases, and the area of blood resources, including blood banking sciences, and transfusion medicine.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Directors, NIH, NHLBI, and Division of Blood Diseases and Resources, on long-range goals and provides concept review of program proposals; identifies research opportunities and makes recommendations regarding plans for program development and implementation; assesses progress and evaluates ongoing programs in relation to goals; and surveys, as scientific leaders, the status of research in the blood area.

MEETINGS

Meetings are usually held three times a year as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BOARD OF SCIENTIFIC COUNSELORS, NHLBI

AUTHORITY

Originally established by the Director, NIH, November 26, 1956; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate June 30, 1985, unless renewed before that date.

STRUCTURE

Consists of six members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are leaders in basic and clinical medical sciences related to the research activities of the NHLBI.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, the Director, NHLBI, and the Director of Intramural Research on the intramural research program through periodic visits to the laboratories for assessment of the research in progress and evaluation of productivity and performance of staff scientists.

MEETINGS

Meetings are held twice a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BOARD OF SCIENTIFIC COUNSELORS, NHLBI

CHAIRPERSON

BANK, ARTHUR 1987
PROFESSOR OF MEDICINE
DEPARTMENT OF MEDICINE
COLLEGE OF PHYSICIANS AND SURGEONS
COLUMBIA UNIVERSITY
NEW YORK, NY 10032

GILMAN, ALFRED G. 1986
PROFESSOR AND CHAIRMAN
DEPARTMENT OF PHARMACOLOGY

EXECUTIVE SECRETARY

ORLOFF, JACK
DIRECTOR
DIVISION OF INTRAMURAL RESEARCH
NATIONAL HEART, LUNG, & BLOOD INSTITUTE
NATIONAL INSTITUTES OF HEALTH, PHS
BETHESDA, MD 20205

CARDIOLOGY ADVISORY COMMITTEE

AUTHORITY

In accordance with P.L. 92-463 established and chartered by the Secretary, September 30, 1974, by restructuring the Myocardial Infarction Committee and the Medical Devices Applications Committee; under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate June 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from recognized contributors to research on cardiac disease, cardiovascular function, and relevant devices and technological developments.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Directors, NIH, NHLBI, and Division of Heart and Vascular Diseases, on planning, execution, and evaluation of the Institute's extramural programs, including those relating to grants, contracts, and specialized centers of research in the general area of cardiology, including cardiac diseases, cardiovascular function, and relevant devices and technological developments. Advises and assists in scientific design and review of current programs in the areas of cardiac diseases, cardiovascular function, and relevant technological developments.

MEETINGS

Meetings are usually held three times a year as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CARDIOLOGY ADVISORY COMMITTEE

CHAIRPERSON

FRYE, ROBERT L. 1986
CHAIRMAN
CARDIOVASCULAR DIVISION
MAYO CLINIC
ROCHESTER, MN 55905

CLINICAL APPLICATIONS AND PREVENTION ADVISORY COMMITTEE

AUTHORITY

Established by the Director, NIH, June 27, 1967, as the Epidemiology and Biometry Advisory Committee under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Revised and renamed September 30, 1974. This committee will terminate June 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 12 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities knowledgeable in the fields of behavioral medicine, clinical trials, nutrition, prevention, demonstration and education, epidemiology, biometry, clinical or laboratory sciences related to cardiovascular, pulmonary or blood diseases.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Directors, NIH, NHLBI, and Division of Epidemiology and Clinical Applications, on policy matters relating to the epidemiological and biometrics research programs; clinical trials, behavioral medicine, nutrition and prevention, demonstration and education programs; and appraises ongoing studies supported by the National Heart, Lung, and Blood Institute in this area. Evaluates ongoing contracts, grants and reimbursable agreements for scientific content and program relevance. Identifies research opportunities and needs for prevention and application of knowledge for the control of heart and vascular, and pulmonary and blood disease.

MEETINGS

Meetings are held at least three times a year as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CLINICAL TRIALS REVIEW COMMITTEE

AUTHORITY

Originally established by the Director, NIH, August 27, 1962, as the Special Review Committee on Therapeutic Agents for Cardiovascular Disease; reestablished as the Heart Special Project Committee June 11, 1963; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; renamed the Therapeutic Evaluations Committee February 18, 1970. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Revised and renamed December 26, 1974. This committee will terminate June 30, 1985, unless renewed before that date.

STRUCTURE

Consists of six members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected on the basis of their expertise in epidemiology, biostatistics, clinical trial design, and technical management, as well as fundamental and clinical research in disciplines related to blood, heart, and lung diseases.

FUNCTIONS

Provides technical advice to the Secretary, the Assistant Secretary for Health, the Director, NIH, the Director, NHLBI, and to the National Heart, Lung, and Blood Advisory Council, including initial review of projects for the support of studies for the evaluation of preventive or therapeutic measures in blood, cardiovascular or lung diseases, particularly through cooperative studies or controlled clinical trials. Provides scientific merit review for such studies seeking grant or contract support from the NHLBI.

MEETINGS

Meetings are held at least three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

HEART, LUNG, AND BLOOD RESEARCH REVIEW COMMITTEE A

AUTHORITY

Originally established by the Director, NIH, March 14, 1961, in the Division of Research Grants as the Heart Program-Project Committee; transferred to the National Heart Institute July 25, 1962; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; renamed the Heart Program-Project A and B Committees December 28, 1965; renamed the Heart Program-Project Committee December 9, 1968; renamed the Heart and Lung Program-Project Comittee January 23, 1970. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Charter was revised September 30, 1974, divided into two groups, one of which was renamed the Heart and Lung Research Review Committee A July 14, 1975; renamed September 24, 1976. This committee will terminate June 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from leading authorities in clinical and basic science and research administration to provide broad coverage of the disciplinary fields pertinent to the fundamental processes and diseases of the cardiovascular system and lungs.

FUNCTIONS

Reviews program project grant applications and other grants-in-aid, such as center supplements, for the support of programs of multidisciplinary basic and clinical research and provides technical advice to the Secretary, the Assistant Secretary for Health, the Directors, NIH and NHLBI, and to the National Heart, Lung, and Blood Advisory Council.

MEETINGS

Meetings are held at least three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

PULMONARY DISEASES ADVISORY COMMITTEE

AUTHORITY

Originally established by the Director, NIH, September 29, 1967, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; as the Cardiopulmonary Disease Advisory Committee; renamed the Pulmonary Diseases Advisory Committee and restructured June 4, 1970; restructured September 20, 1971. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate June 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected for their representation of various basic science and clinical disciplines relevant to pulmonary diseases, including cell biology, physiology, biochemistry, immunology, pathology, epidemiology, bioengineering, clinical and community medicine.

FUNCTIONS

Provides advice to the Secretary, the Assistant Secretary for Health, the Directors, NIH, NHLBI, and Division of Lung Diseases, on aims, progress and productivity of goal-oriented programs of the Institute such as Pulmonary Specialized Centers of Research, Research and Demonstration Centers and research contracts; identifies research and training opportunities, evaluates current and future program needs in the pulmonary disease area.

MEETINGS

Meetings are held at least three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

RESEARCH MANPOWER REVIEW COMMITTEE

AUTHORITY

In accordance with P.L. 92-463, originally established and chartered by the Secretary, September 30, 1974, as the Pulmonary Young Investigator Grant Committee, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. Renewed June 27, 1975; revised and renamed Research Manpower Review Committee December 30, 1976. This committee will terminate June 30, 1985, unless renewed before that date.

STRUCTURE

Consists of six members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities in clinical and basic biomedical and behavioral sciences to provide broad coverage of the disciplines related to blood, heart, and lung diseases.

FUNCTIONS

Provides technical advice to the Secretary, the Assistant Secretary for Health, the Director, NIH, the Director, NHLBI, and to the National Heart, Lung, and Blood Advisory Council, including initial review of projects for the support of research manpower training for the Transfusion Medicine Academic Award Program, the Preventive Cardiology Academic Award Program, Clinical Investigator Awards, Special Emphasis Research Career Awards, Physician Scientist Awards, National Research Service Awards for Institutional Grants, and for conferences and workshops related to research manpower development. This committee provides scientific merit review for all such programs seeking grant support from the NHLBI.

MEETINGS

Meetings are held at least three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

STRUCTURE

Consists of 11 members, including the chair, appointed by the Secretary or designee. In addition, there will be ex-officio members as follows: The Director, NIH, or his designee; the Director, Center for Disease Control or his designee; the Administrator, HSA, or his designee; the Administrator, Veterans Administration or his designee; and the Assistant Secretary of Defense (Health and Environment) or his designee. Sickle Cell anemia is a health problem affecting for the most part the black population of the United States; membership will be such as to represent fully the affected community. Seven members will be scientists, experts in the appropriate fields of science, and four members will be prominent lay leaders.

FUNCTIONS

Advises the Secretary, or designee, the Assistant Secretary for Health, and the Director, NIH, on the Sickle Cell Disease Program and its implementation, and makes recommendations concerning the planning, execution and evaluation of the program.

MEETINGS

Meetings are held at least three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

SICKLE CELL DISEASE ADVISORY COMMITTEE

NATIONAL ADVISORY NEUROLOGICAL AND COMMUNICATIVE DISORDERS AND STROKE COUNCIL

AUTHORITY

Originally established by the Surgeon General in August 1950, as the National Advisory Neurological Diseases and Blindness Council as authorized by section 431 of the Public Health Service Act, as amended. Renamed the National Advisory Neurological Diseases and Stroke Council by the Secretary January 8, 1969, 42 U.S. Code 289a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. The change in the present name of the council was made June 6, 1975. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Secretary or designee as chair, the Chief Medical Officer of the Veterans Administration or his representative, and a medical officer designated by the Secretary of Defense, who serve as ex officio members; and sixteen members appointed by the Secretary, HHS, who are leaders in the fields of fundamental sciences, medical sciences, education, and public affairs. Members are appointed for overlapping terms of four years, beginning November 1, and no member is eligible for reappointment to the same council or another council within one year after the end of his preceding term. The Council has one standing subcommittee related to grant review, composed entirely of members of the parent body, the Council Planning Subcommittee.

FUNCTIONS

Advises the Secretary; the Assistant Secretary for Health; and the Director, National Institutes of Health, on the extramural research and related programs of the National Institute of Neurological and Communicative Disorders and Stroke. The Council reviews research grant applications and applications for training grants and awards. It advises the Director, National Institutes of Health, on program needs, program progress, and program accomplishments pertinent to the Institute's purpose with particular emphasis on its extramural program of grants and contracts.

MEETINGS

Meetings are held three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

BOARD OF SCIENTIFIC COUNSELORS, NINCDS

AUTHORITY

Originally established by the Director, NIH, November 26, 1956; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate May 31, 1986, unless renewed before that date.

STRUCTURE

Consists of eight members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from leaders in basic and clinical medical sciences related to the research activities of the NINCDS.

FUNCTIONS

Provides advice to the Secretary, HHS, the Assistant Secretary for Health, the Director, NIH, the Deputy Director for Science, NIH, the Institute Director, and the Director of Intramural Research, on matters of scientific program, both present and future, and particularly from a long-range viewpoint, as they relate to the intramural research programs.

MEETINGS

Meetings are held twice a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

COMMUNICATIVE DISORDERS REVIEW COMMITTEE

AUTHORITY

Originally established by the Director, NIH, October 26, 1956; as the Otolaryngology Postgraduate Training Grant Committee; name changed to Communicative Disorders Research Training Committee July 19, 1960; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; reestablished October 21, 1966, as the Neurology Program-Project Review Committee B, renamed Communicative Disorders Program-Project Review Committee November 20, 1969; renamed Communicative Disorders Review Committee and restructured by combining the Communicative Disorders Program-Project Review Committee and the Communicative Disorders Research Training Committee July 1, 1972. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate May 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are leaders in academic medicine, sensory disease research and clinical sciences related to the communicative disorders and chemosensory disorders which are of concern in carrying out the functions of the NINCDS.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, National Institutes of Health, and the Director, National Institute of Neurological and Communicative Disorders and Stroke. Reviews applications for program projects, Institutional National Research Service Awards, Conference grants, Teacher Investigator Development Awards, Clinical Research Centers, and special projects in the fields of communicative sciences and its disorders.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

EPILEPSY ADVISORY COMMITTEE

AUTHORITY

Originally established by the Surgeon General November 12, 1965, as the Epilepsies Advisory Committee, Research and Research Training Subcommittee, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; restructured and renamed July 21, 1971. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Renewed and terminating May 31, 1985.

STRUCTURE

Consists of 11 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are outstanding authorities in the various areas of the epilepsies, specializing in clinical research and medical treatment of epilepsy; research on seizure mechanisms; and surgical treatment of epilepsy.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, the Director, NIH, and the Director, NINCDS in evaluating the overall existing research program relative to the epilepsies, in recommending means by which the deficiencies in this program can be obviated, and in the mounting of new clinical and basic research efforts.

MEETINGS

Meetings are held twice a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

SCIENTIFIC PROGRAMS ADVISORY COMMITTEE, NINCDS

AUTHORITY

Originally established by the Director, NIH, April 18, 1966, as the Neurological Diseases and Blindness Science Information Program Advisory Committee under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; renamed the Neurological Diseases and Stroke Science Information Program Advisory Committee June 22, 1976. Renamed and restructured as the Scientific Programs Advisory Committee January 12, 1981, by the Secretary, HHS. This committee will terminate May 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 21 members, including the Director, NINCDS, or designee, who shall serve as the chair. Members are appointed by the Director, NIH for overlapping terms of four years and are leading authorities in the fields of the clinical and basic neurosciences, the clinical and basic communicative sciences, bioengineering, and other related biomedical, epidemiological and neurobehavioral science disciplines. The committee has five standing subcommittees composed entirely of members of the parent body, the Subcommittee on: Communicative Disorders; Convulsive, Developmental and Neuromuscular Disorders; Stroke and Trauma; Fundamental Neurosciences; and Demyelinating, Atrophic, and Dementing Disorders.

FUNCTIONS

Provides advice to the Secretary, the Assistant Secretary for Health, and the Director, NIH, on research in neurological, communicative disorders and stroke programs. The Committee makes recommendations on the means for implementing the Institute's responsibilities, and provides evaluation of ongoing program progress in achieving the Institute's goals and objectives.

MEETINGS

Meetings are held as necessary but not less often than once a year, at the call of the chair, with the advance approval of a government official who also approves the agenda. Each subcommittee also shall meet as necessary at the call of the chair. A government official is present at all meetings.

ALLERGY AND IMMUNOLOGY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, October 10, 1956; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. The study section was divided into A and B sections, November 20, 1963. The name of the B section was changed to Immunobiology Study Section and the A designation was dropped August 1967. In accordance with P.L. 92-463, chartered by the Secretary, January 4, 1973. This committee will terminate July 31, 1986, unless renewed before that date

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from authorities outstanding in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Allergy and Immunology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating predominately to chemical rather than biological methods to study diseases of immunogenic origin and the underlying molecular mechanisms by means of which the organism recognizes or detects the presence of invading foreign proteins and defends itself against disturbances to its integrity and well-being. Human disorders are emphasized, but the phylogenetic progression from simple to complex mechanisms is taken into account, as well as the ontogenetic development of the complex immune system normally found in mammals, and the consequences that result when these systems are lacking, insufficiently developed or deranged. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BACTERIOLOGY AND MYCOLOGY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, June 27, 1958, when the Microbiology Study Section was divided into two groups; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. code 217a. The study section was divided into A and B sections June 4, 1964. The name of the B section was changed to the Microbial Chemistry Study Section and the A designation was dropped in 1967. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 32 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Bacteriology and Mycology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grantsinaid for research and research training awards and proposals relating to the broad areas of basic bacteriology and mycology as well as bacterial and fungal infectious diseases. Included are their: etiology, pathogenesis, host-parasite relationships, epidemiology, ecology, antigen-antibody relations, host responses, general immune phenomena, infection-immune relationships, endotoxins, exotoxins, mycotoxins, virulence, vaccines, diagnostic procedures, and antibiotic usage. The members of this study section shall survey as scientific leaders the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BEHAVIORAL AND NEUROSCIENCES STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, January 12, 1981, in accordance with P.L. 92-463, under Section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate October 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 32 members including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into five subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this study section.

FUNCTION

The Behavioral and Neurosciences Study Section shall advise the Secretary, the Assistant Secretary for Health, and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training activities and proposals relating to research and training in the behavioral, social, epidemiological, neural, visual, auditory and communicative sciences. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BEHAVIORAL MEDICINE STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, December 9, 1980, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate September 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 16 members including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTION

The Behavioral Medicine Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to various aspects of behavioral medicine. The emphasis will be a combined effort of biomedical and behavioral science in basic and clinical areas involving the interrelationship of psychosocial and behavioral factors in health and illness. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BIO-ORGANIC AND NATURAL PRODUCTS CHEMISTRY STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, December 9, 1980, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate September 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which comes within the jurisdiction of this particular study section.

FUNCTION

The Bio-Organic and Natural Products Chemistry Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to (1) Bio-Organic Chemistry which involves the biosynthetic, biogenetic, biomimetic, or chemical evolutionary studies of biologically active natural products; the design and synthesis of enzyme substrates, activators, and inhibitors and evaluation in biological systems, model enzyme studies and enzyme kinetic studies; the design and synthesis of receptor agonists and antagonists and evaluation in biological test systems; the design and synthesis of potential carcinogens where detailed protocols for biological evaluation are not present; (2) Natural Products Chemistry which involves the isolation, separation, structure determination, and chemical synthesis of nonpolymeric natural products from terrestrial or marine origin. The members of this study section shall survey, as scientific leaders, the status of research in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BETHESDA, MD 20205

BIOCHEMICAL ENDOCRINOLOGY STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, February 12, 1979, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate October 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTION

The Biochemical Endocrinology Study Section shall advise the Secretary, the Assistant Secretary for Health and Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to chemical and biochemical aspects of endocrinology involving reproduction. Also covered will be studies on non-endocrine (pharmacological) action of hormones. The members of this study section shall survey, as scientific leaders, the status of research in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BIOCHEMICAL ENDOCRINOLOGY STUDY SECTION

CHAIRPERSON

MULDOON, THOMAS G. 1986
PROFESSOR
DEPARTMENT OF ENDOCRINOLOGY
SCHOOL OF MEDICINE
MEDICAL COLLEGE OF GEORGIA

BIOCHEMISTRY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, July 1, 1951, as a result of the separation of the Biochemistry and Nutrition Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 36 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Biochemistry Study Section shall advise the Secretary, the Assistant Secretary for Health, and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to broad areas in biochemistry with an orientation toward: (1) enzymological approaches to biochemistry and both in vivo and in vitro research; (2) biochemical approaches relevant to specific clinical studies. Included in (1) are proposals in general enzymology, metabolic pathways, and the enzymology of biopolymer synthesis; and in (2) biochemical studies of inborn errors of amino acid and purine metabolism of syndromes such as Reyes or Dorons, cystic fibrosis, enzyme markers in specific diseases, animal models for applied clinical biochemical studies, "factors" found associated with various diseases, and the mechanism of a disease. The members of this study section shall survey, as scientific leaders, the status of research in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BIOMEDICAL SCIENCES STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, January 12, 1981, in accordance with P.L. 92-463, under Section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate October 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 64 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. The members are subdivided into five subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come under the jurisdiction of this study section.

FUNCTION

The Biomedical Sciences Study Section shall advise the Secretary, the Assistant Secretary for Health, and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the biomedical sciences to include biophysics and biophysical chemistry, biochemistry, bacteriology and mycology, bioanalytical chemistry, metallochemistry, bio-organic and natural products chemistry, cell biology, cellular physiology, molecular cytology, genetics, microbiology, microbial chemistry, molecular biology, medicinal chemistry, metabolism, nutrition, physical biochemistry, pathobiological chemistry, physiological chemistry, pharmacology, tropical medicine and parasitology, and toxicology. Subject matter reviewed for the Fogarty International Center may extend into areas of behavioral, neurological, and clinical sciences. The members of this study section shall survey, as scientific leaders, the status of research and training in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BIOPHYSICAL CHEMISTRY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, September 19, 1965, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Renewed and name changed to Biophysical Chemistry Study Section May 31, 1981. This committee will terminate August 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 14 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Biophysical Chemistry Study Section shall advise the Secretary, the Assistant Secretary for Health, and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the physical chemistry of proteins (including lipoproteins and glycoproteins), nucleic acids and their compounds, hemoproteins, lipids, polysaccharides; structure of muscle proteins and other contractile systems; polymer structure and dynamics as models for biological polymers; theoretical chemistry; x-ray and electron diffraction of proteins, and other biopolymers; spectroscopy; electron paramagnetic (spin) resonance, nuclear magnetic resonance (NMR) spectroscopies; and light scattering (instrumentation). The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BIOPSYCHOLOGY STUDY SECTION

AUTHORITY

Originally established as Experimental Psychology Study Section by the Director, NIH, November 8, 1959; reestablished under section 222 of the Public Health Service Act, as amended 42 U.S. Code 217a. April 6, 1964, the study section was divided into A and B sections. March 1, 1967, the Experimental Psychology A Study Section was administratively transferred to the National Institute of Mental Health and the B designation was dropped. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Restructured and name changed to Biopsychology Study Section on April 4, 1978. This committee will terminate October 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Biopsychology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to diverse disciplines which employ behavioral measures as dependent variables. Studies reviewed include the purely behavioral; hormonal and biochemical correlates of behavior; effects of CNS lesions, recovery of function after CNS insult; developmental neurobiology emphasizing behavioral function; sensory processes; comparative psychology, including ethological and ecological studies; developmental studies of both animals and humans; and studies examining the electrophysiological correlates of behavior. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BIOPSYCHOLOGY STUDY SECTION

CHAIRPERSON

HARVEY, JOHN A. 1985
PROFESSOR AND CHAIRMAN
DEPARTMENT OF PSYCHOLOGY

CARDIOVASCULAR AND PULMONARY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, April 10, 1946, as the Cardiovascular Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. The study section was divided into A and B sections October 21, 1964; name changed to Cardiovascular and Pulmonary Research A Study Section March 26, 1971. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Revised and name changed to Cardiovascular and Pulmonary Study Section June 30, 1973. This committee will terminate September 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Cardiovascular and Pulmonary Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the fields of research covered by this study section. Primarily, these comprise basic and clinical aspects of heart function in normal and diseased states, and changes in function associated with maturation and aging. The studies may involve isolated cells, organs, humans, or animal models of disease. Patient studies may involve children or adults and may include diseases such as myocardial ischemia, arrhythmia, angina, cardiomyopathies, cardiac hypertrophy, valvular disease, the medical aspects of congenital heart disease, and sudden cardiac death. Also included are some aspects of the cardiopulmonary system and some related aspects of cardiopulmonary resuscitation. The disciplines covered include physiology, biochemistry, pharmacology, pathology, and limited aspects of biophysics, bioengineering, mathematics, and computer technology as they relate to studies of cardiac function and models of cardiac function. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CARDIOVASCULAR AND RENAL STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, October 21, 1966, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; name changed to Cardiovascular and Pulmonary Research B Study Section, March 26, 1971. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Revised and name changed to Cardiovascular and Renal Study Section June 30, 1973. This committee will terminate September 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Cardiovascular and Renal Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the basic and clinical aspects of function in all aspects of the cardiovascular system and certain aspects of the renal system in normal and disease states. Fields covered by this study section and related to the heart include coronary artery disease, myocardial infarction, cardiac drugs, catheterization methods, monitoring, and neural regulation. Other relevant fields concerning blood vessels and blood flow are hemodynamics, pressure and flow measurements, pulsatile analyses, vessel-wall distensibility, transcapillary exchange, and microcirculation. Additional appropriate fields are certain renal areas involving hypertension, renal hemodynamics, renin-angiotensin-aldosterone system, catecholamines, prostaglandins, binding of hormones, regulation of hormone action, and electrolyte disturbances. The members of this study section shall survery, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CELLULAR BIOLOGY AND PHYSIOLOGY
STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, April 20, 1958 as the Cell Biology Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. The study section was divided into A and B sections, July 27, 1965. The name of the B section was changed to the Molecular Biology Study Section, and the A designation was dropped, August 11, 1967. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 36 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Cellular Biology and Physiology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the study of (1) cell organization (the structure and function of cellular organelles), (2) development of the cell and of the organism at the cellular level, and (3) cell regulation, including the metabolism of the cell and the interactions between cells. Also, cellular morophology and activity are studied in organisms ranging from the lower plants to the higher vertebrates. Cells in tissue culture as well as _in vitro_ are considered. The techniques of light, electron and other microscopic methods, biochemistry, molecular biology and biophysics are applicable to these areas of research. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CHEMICAL PATHOLOGY STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, February 12, 1979, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate October 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTION

The Chemical Pathology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to various aspects of pathology with emphasis on linking the disciplines of chemistry and pathology in basic and clinical studies of the etiology of disease at the cellular level. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

CLINICAL SCIENCES STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, January 12, 1981, in accordance with P.L. 92-463, under Section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate October 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 48 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. The members are subdivided into four subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTION

The Clinical Sciences Study Section shall advise the Secretary, the Assistant Secretary for Health, and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to basic and clinical immunology, virology, physiology, cardiovascular sciences, orthopedics, endocrinology, reproductive biology, embryology, pathology, hematology, gastroenterology, rheumatology, dermatology, urology, surgery, oral biology, radiation biology, experimental therapeutics, and carcinogenesis. The members of this study section shall survey, as scientific leaders, the status of research and research training in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

DIAGNOSTIC RADIOLOGY STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, February 12, 1979, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a, as the Diagnostic Radiology and Nuclear Medicine Study Section. Restructured and renamed the Diagnostic Radiology Study Section. This committee will terminate August 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 20 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTION

The Diagnostic Radiology Study Section shall advise the Secretary, the Assistant Secretary for Health and Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the generation, detection and use of ionizing radiation for clinical diagnosis and its improvement; the development and use of radioisotopes and radio-pharmaceuticals for diagnosis, bioresearch and therapy; the medical use and bioeffects of non-ionizing radiations (such as ultrasound, microwaves, NMR and LASERS) pertinent to diagnosis and to the development of human safety standards for these radiations. The members of this Study Section shall survey, as scientific leaders, the status of research in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

ENDOCRINOLOGY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, September 27, 1951, when the Metabolism and Endocrinology Study Section was divided into two groups; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Endocrinology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the general physiology of the endocrine glands, endocrine abnormalities, hormone biochemistry, reproduction and neuroendocrinology. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

EPIDEMIOLOGY AND DISEASE CONTROL STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, June 15, 1965, when the Human Ecology and Disease Control Study Sections were combined, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 40 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Epidemiology and Disease Control Study Section shall advise the Secretary, the Assistant Secretary for Health, and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and of proposals relating to epidemiologic and human population research. These may be concerned with heart, vascular, lung and blood disease; carcinogenesis, tumors and other types of cancer; infant mortality, growth and development; aging; dental diseases and anomalies; eye diseases; environmental health hazards; neuropathological conditions and stroke; arthritis, metabolic and digestive diseases; allergies and infectious diseases; trauma; application of mathematical and statistical theory to biomedical and epidemiological research problems, e.g., model building and both genetic and environmental risk factor analysis. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

EXPERIMENTAL CARDIOVASCULAR SCIENCES
STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, December 9, 1980, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate September 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTION

The Experimental Cardiovascular Sciences Study Section shall advise the Secretary, the Assistant Secretary for Health, and the Director, National Institutes of Health, regarding applications for grantsinaid for research and research training awards and proposals relating to various aspects of clinical and basic research in cardiovascular, renal, vascular smooth muscle, physiology, and pharmacology. A common thread uniting these modalities and areas of scientific expertise is the function of the cardiovascular system and of the kidneys and the attendant instrumentation needed to study them. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

EXPERIMENTAL THERAPEUTICS STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, April 20, 1956, as the Cancer Chemotherapy Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a, and renamed the Chemotherapy Study Section; in 1965, renamed the Pharmacology and Experimental Therapeutics B Study Section; renamed the Pharmacology B Study Section August 11, 1967; renamed the Experimental Therapeutics Study Section October 25, 1972. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 17 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Experimental Therapeutics Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and of proposals relating to the various aspects of experimental therapy of neoplastic diseases and some associated disorders, including those concerned with biochemical mechanisms of action of chemotherapeutic agents at the preclinical level and in experimental therapy, biochemical pharmacology, and assessment of efficacy of a variety of agents at the clinical level as well as those applications concerned with immunotherapy at the clinical level. The principal strengths of this study section are in molecular pharmacology, biochemistry, enzymology, endocrinology, hematology, as related to experimental therapy, and clinical oncology. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

EXPERIMENTAL VIROLOGY STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, April 25, 1975, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate September 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this study section.

FUNCTIONS

The Experimental Virology Study Section shall advise the Secretary, The Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to studies of virology and cell culture. Included are basic and applied studies in pathogen-host cell relationships, viral genetics and morphology, therapeutic agents, pathology and viral immunology. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

GENERAL MEDICINE A STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, March 8, 1957, as the General Medicine Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. The study section was divided into A and B sections May 27, 1965. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 34 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The General Medicine A Study Section shall advise the Secretary, the Assistant Secretary for Health, and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to arthritis, some autoimmune disorders, connective tissue disorders, metabolic diseases, dermatology and normal function and diseases of the gastroenteric tract and associated glandular structures. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

GENERAL MEDICINE B STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, May 27, 1965, when the General Medicine Study Section was divided into A and B sections, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The General Medicine B Study Section shall advise the the Secretary, Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to areas pertaining to water and electrolyte balance, mineral metabolism, kidney function and the pathology and physiology of bone. Applications requesting support of renal research with emphasis on causative mechanisms and therapy of renal disease (exclusive of cardiovascular involvement) as opposed to basic investigations of pathology are of special interest to this study section. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

GENETICS STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, April 20, 1958, when the Morphology and Genetics Study Section was divided into two groups; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Genetics Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the broad hereditary aspects of animals and plants that are useful in elucidating basic or fundamental principles applicable to the biomedical sciences. The topics range from theoretical models to basic studies with the use of molecular, population, or classical methodologies including mutagenesis, transmission, quantitative, cytogenetic, and developmental techniques. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

HEMATOLOGY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, March 10, 1946; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 40 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Hematology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to: (1) general hematology; (2) blood formation, bone marrow; (3) hemoglobin; (4) coagulation, anticoagulants, fibrinolysis; (5) metabobolism of red and white blood cells; (6) immunohematology, blood groups, transfusion; (7) anemia; (8) leukemia, lymphoma, lymphosarcoma and related areas; (9) preservation and storage of blood cells and other blood components or synthetic blood substitutes. The members of this study section shall survey, as scientific leaders, the status of research in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

HUMAN DEVELOPMENT AND AGING STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, March 22, 1967, as the Developmental Behavioral Sciences Study Section, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Restructured and name changed to the Human Development Study Section April 4, 1978; restructured and renamed May 31, 1981. This committee will terminate August 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 48 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into three subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Human Development and Aging Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the general areas of child, adolescent, and adult development and aging, including development of sensory, perceptual, cognitive, and personality processes. Proposals reviewed also include those dealing with socialization, education and reading, language development, mental retardation and other developmental disabilities, and psychophysiology. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

HUMAN EMBRYOLOGY AND DEVELOPMENT STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, January 1, 1955; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 17 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Human Embryology and Development Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to research in the physiology of reproduction, the fetus and embryo, parturition, the neonatal period, teratology, and experimental embryology. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

MAMMALIAN GENETICS STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, February 12, 1979, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate October 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTION

The Mammalian Genetics Study Section shall advise the Secretary, Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the search for new knowledge in the field of mammalian genetics. The subject matter would focus on the broad hereditary aspects of humans and warm-blooded animals ranging from theoretical models and basic studies to human clinical studies with the use of molecular, population, or classical methodologies, including biochemical somatic cell, immunogenetic, behavioral, cytogenetic, and formal techniques pertaining to developmental genetics, mutagenesis, genetic defects or genetic diseases of humans. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BETHESDA, MD 20205

MEDICINAL CHEMISTRY STUDY SECTION

AUTHORITY

Originally established as the Panel of Medicinal Chemistry Consultants in 1959; established by the Director, NIH, May 27, 1960, as the Medicinal Chemistry Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. The study section was divided into A and B sections, October 1, 1962. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Name changed to Medicinal Chemistry Study Section February 16, 1981. This committee will terminate July 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Medicinal Chemistry Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to (1) medicinal and pharmaceutical chemistry which involves synthesis, followed by biochemical, biological, pharmacological, or chemotherapeutic screening and evaluation of natural products and synthetic organic compounds, structure-activity relationships, design of drugs; (2) structure determination by synthesis or degradation which involves non-theoretical and non-instrumental conformational and stereochemical studies; (3) development of synthetic organic methodology which involves chemical synthesis of natural products and other organic compounds of chemotherapeutic, pharmacological, biological or biochemical interest, including biopolymers and their components such as polypeptides, polysaccharides, and polynucleotides; (4) chemical dynamics which includes in vitro transformation, reaction mechanisms, kinetics and photochemistry of a non-theoretical and non-instrumental nature. The members of this study section shall survey, as scientific leaders, the status of research in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

METABOLISM STUDY SECTION

AUTHORITY

Originally established in 1946 as the Metabolism and Endocrinology Study Section. In 1951, as a result of the reorganization of the Biochemistry and Nutrition Study Section and the Metabolism and Endocrinology Study Section, renamed the Metabolism and Nutrition Study Section. Reestablished by the Director, NIH, June 15, 1959, when the latter study section was divided into two groups, as the Metabolism Study Section and the Nutrition Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate July 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Metabolism Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to studies of metabolic processes in normal and disordered states in animal models or human subjects, as well as in whole organs (isolated or in situ) or tissues (including cell cultures). The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

METALLOBIOCHEMISTRY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, October 1, 1962, when the Medicinal Chemistry Study Section was divided into A and B sections; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Revised and renamed August 4, 1977 as the Bioanalytical and Metallobiochemistry Study Section. Restructured and renamed the Metallobiochemistry Study Section June 30, 1980. This committee will terminate July 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Metallobiochemistry Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to metallobiochemistry and clinical chemistry. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

MICROBIAL PHYSIOLOGY AND GENETICS
STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, June 4, 1964, as the Bacteriology and Mycology B Study Section, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; name changed to Microbial Chemistry Study Section August 11, 1967. In accordance with P.L. 92-463 chartered January 4, 1973, by the Secretary. Restructured and renamed the Microbial Physiology Study Section June 30, 1980. Rechartered and renamed the Microbial Physiology and Genetics Study Section June 30, 1982. This committee will terminate October 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 36 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Microbial Physiology and Genetics Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the area of microbial metabolism, cell surface phenomena, morphogenesis, cell division, antibiotic structure, function, and biosynthesis, microbial genetics, mutagenesis and repair, genetic control of DNA, RNA and protein synthesis, transposons, and plasmid genetics. The experimental materials include bacteria, fungi, mycoplasmas, bacteriophage, isolated organelles, or components of the microbial cell, and material from animal systems. The members of this study section shall survey, as scientific leaders, the status of research in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

MOLECULAR AND CELLULAR BIOPHYSICS STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, January 1, 1955, as the Biophysics and Biophysical Chemistry Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. The study section was divided into A and B sections September 19, 1965. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Renewed and name changed to Molecular and Cellular Biophysics Study Section May 31, 1981. This committee will terminate August 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Molecular and Cellular Biophysics Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the physical chemistry of proteins, nucleic acids and other biological molecules, x-ray crystallography of smaller molecules, theoretical chemistry, thermodynamics and kinetics, energy transfer and electronic structure, photobiology and photochemistry (excluding clinical aspects), spectroscopy, optical rotation, ultracentrifugation, physical chemical instrumentation, fluorescence, and phosphorescence. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

MOLECULAR BIOLOGY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, July 27, 1965, as the Cell Biology B Study Section under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; name changed to Molecular Biology Study Section August 11, 1967. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate August 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 17 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Molecular Biology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to cytomolecular interactions and functions and corresponding cellular structural components. Studies on the molecular basis of normal cell and cell processes, as well as cell and cell-organelle associated abnormalities, disorders, malfunctions, deficiencies, and diseases are within the purview of this study section. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

MOLECULAR BIOLOGY STUDY SECTION

CHAIRPERSON

CLAYTON, DAVID A. 1986
PROFESSOR OF PATHOLOGY
DEPARTMENT OF PATHOLOGY
SCHOOL OF MEDICINE
STANFORD UNIVERSITY
STANFORD, CA 94305

BERGET, SUSAN M. 1988
ASSOCIATE PROFESSOR
DEPARTMENT OF BIOCHEMISTRY
WEISS SCHOOL OF NATURAL SCIENCES
RICE UNIVERSITY
HOUSTON, TX 77005

ENGEL, JAMES D. 1988
ASSOCIATE PROFESSOR
DEPT OF BIOCHEM/MOLECULAR & CELL BIOLOGY
COLLEGE OF ARTS AND SCIENCES
NORTHWESTERN UNIVERSITY
EVANSTON, IL 60201

FIRTEL, RICHARD A. 1986
PROFESSOR
CENTER FOR DEVELOPMENTAL BIOLOGY
UNIVERSITY OF CALIFORNIA, SAN DIEGO
LA JOLLA, CA 92093

GOFF, STEPHEN P. 1988
ASSISTANT PROFESSOR
DEPARTMENT OF BIOCHEMISTRY
COLLEGE OF PHYSICIANS AND SURGEONS
COLUMBIA UNIVERSITY
NEW YORK, NY 10032

GREENLEAF, ARNO L. 1987
ASSOCIATE PROFESSOR
DEPARTMENT OF BIOCHEMISTRY
SCHOOL OF MEDICINE
DUKE UNIVERSITY
DURHAM, NC 27710

JEFFERY, WILLIAM R. 1985
ASSOCIATE PROFESSOR
DEPARTMENT OF ZOOLOGY
COLLEGE OF NATURAL SCIENCES
UNIVERSITY OF TEXAS
AUSTIN, TX 78712

KASAMATSU, HARUMI 1985
ASSOCIATE PROFESSOR
DEPARTMENT OF BIOLOGY
COLLEGE OF LETTERS AND SCIENCE
UNIVERSITY OF CALIFORNIA
LOS ANGELES, CA 90024

LAMBOWITZ, ALAN M. 1986
PROFESSOR
DEPARTMENT OF BIOCHEMISTRY
SCHOOL OF MEDICINE
ST. LOUIS UNIVERSITY
ST. LOUIS, MO 63104

MAURER, RICHARD A. 1985
ASSOCIATE PROFESSOR
DEPARTMENT OF PHYSIOLOGY & BIOPHYSICS
COLLEGE OF MEDICINE
UNIVERSITY OF IOWA
IOWA CITY, IA 52242

STALLCUP, MICHAEL R. 1988
ASSISTANT PROFESSOR
DEPARTMENT OF BIOLOGY
COLLEGE OF SCIENCE AND MATHEMATICS
UNIVERSITY OF SOUTH CAROLINA
COLUMBIA, SC 29208

TILGHMAN, SHIRLEY M. 1987
MEMBER
INSTITUTE FOR CANCER RESEARCH
PHILADELPHIA, PA 19111

WEINBERG, ERIC S. 1986
ASSOCIATE PROFESSOR
DEPARTMENT OF BIOLOGY
FACULTY OF ARTS AND SCIENCES
UNIVERSITY OF PENNSYLVANIA
PHILADELPHIA, PA 19104

WOO, SAVIO L. C. 1985
PROFESSOR
DEPARTMENT OF CELL BIOLOGY
COLLEGE OF MEDICINE
BAYLOR COLLEGE OF MEDICINE
HOUSTON, TX 77030

EXECUTIVE SECRETARY

DISCUE, DONALD T.
DIVISION OF RESEARCH GRANTS
NATIONAL INSTITUTES OF HEALTH, PHS
BETHESDA, MD 20205

MOLECULAR CYTOLOGY STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, April 25, 1975; in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate September 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Molecular Cytology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to studies of the molecular basis of disease; studies of cell structure and function (nucleus, cytoplasm, membranes and organelles); studies of molecular synthesis, transport and degradation; and studies of differentiation, control, transcription, translation, transformation and cellular senescence. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

MOLECULAR CYTOLOGY STUDY SECTION

CHAIRPERSON

ALBERTS, BRUCE M.   1986
PROFESSOR OF BIOCHEMISTRY
DEPARTMENT OF BIOCHEMISTRY & BIOPHYSICS
SCHOOL OF MEDICINE
UNIVERSITY OF CALIFORNIA
SAN FRANCISCO, CA 94143

ADELSTEIN, ROBERT S.   1985
CHIEF
LABORATORY OF MOLECULAR CARDIOLOGY
NATIONAL HEART, LUNG, & BLOOD INSTITUTE
NATIONAL INSTITUTES OF HEALTH, PHS
BETHESDA, MD 20205

AGARWAL, KAN L.   1986

NEUROLOGICAL SCIENCES STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, November 15, 1976, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. This committee will terminate October 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 36 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Neurological Sciences Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals dealing with most of the fundamental neuroscience disciplines including neurochemical and neuropharmacological aspects utilizing invertebrates as well as vertebrates and neuronal cell culture systems. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times, a year as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

NEUROLOGICAL SCIENCES STUDY SECTION

CHAIRPERSON

STITZEL, ROBERT E. 1985
ASSOCIATE CHAIRMAN
DEPARTMENT OF PHARMACOLOGY & TOXICOLOGY

NEUROLOGY A STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, February 26, 1953, as the Neurology Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. The study section was divided into A and B sections August 17, 1962. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate August 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Neurology A Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the following multidisciplinary areas of neurological science: clinical neurology, neuroanatomy, neurochemistry, neuropathology, neuroendocrinology, neurophysiology, and neurosurgery. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

NEUROLOGY B STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, August 17, 1962; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate August 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 36 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Neurology B Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the study of the nervous system as represented by the following: neuroanatomy, neurochemistry, neuropharmacology, neurophysiology and neuropsychology; clinical-experimental neurology, neuropathology and neurosurgery. Proposals dealing with developmental neurobiology with special emphasis on degeneration, regeneration and plasticity, with neuromuscular relationships, and with CNS control of various organ systems are also reviewed. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

NUTRITION STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, in 1946, as the Biochemistry and Nutrition Study Section. In 1951 the study section was divided into the Biochemistry Study Section and the Metabolism and Nutrition Study Section. The Metabolism and Nutrition Study Section was divided into two groups June 15, 1959; the Metabolism Study Section and the Nutrition Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate August 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 17 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Nutrition Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the requirements of normal living organisms for the specific major nutrients, vitamins and trace elements and factors that affect these requirements; and nutritional practices in nonspecific disease or special states of being. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

ORAL BIOLOGY AND MEDICINE
STUDY SECTION

AUTHORITY

Originally established as the Dental Study Section by the Director, NIH, April 25, 1946; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered, January 4, 1973, by the Secretary. Restructured and renamed Oral Biology and Medicine Study Section December 26, 1974. This committee will terminate July 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 34 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Oral Biology and Medicine Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to any field of physical or biological science which can contribute to improvement of the health or function of the structure of the orofacial area. Areas included are anthropology, biochemistry, dental materials, epidemiology, oral microbiology, oral pathology, and oral surgery. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

ORTHOPEDICS AND MUSCULOSKELETAL STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, October 5, 1963, as the Advisory Committee on Applied Physiology under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; renamed the Applied Physiology Study Section April 10, 1964; name changed to Applied Physiology and Bioengineering Study Section March 28, 1972. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Renamed Applied Physiology and Orthopedics Study Section December 6, 1976. Renewed, restructured and name changed to Orthopedics and Musculoskeletal Study Section May 31, 1981. This committee will terminate August 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Orthopedics and Musculoskeletal Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to orthopedic surgery in terms of the biomechanical, biomaterials and biochemical aspects of the musculoskeleton, normal and abnormal. Especially pertinant are the following areas: (1) orthopedic surgery as related to biomechanics, biomaterials, kinetics, kinesiology and prosthetic devices; (2) bioengineering, especially bioinstrumentation, and mathematical modeling as related to the above fields; (3) bone and cartilage physiology and biochemistry; (4) bone, ligament and tendon repair; (5) bone grafting and immunology problems; and (6) bone diseases of childhood and old age, e.g., scoliosis, osteogenesis imperfecta, and osteoporosis, (7) calcification of bone, bone cell culture, and histopathology of bone disease; and (8) radiographic diagnosis of bone disease. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

PATHOBIOCHEMISTRY STUDY SECTION

AUTHORITY

Established and chartered by the Secretary, April 25, 1975, as the Pathobiological Chemistry Study Section, in accordance with P.L. 92-463, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. Rechartered and renamed the Pathobiochemistry Study Section June 30, 1982. This committee will terminate October 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Pathobiochemistry Study Section shall advise the Secretarty, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to proteins, nucleic acids and complex carbohydrates, their biosynthesis, purification, and characterization; structure-function relationships, active sites, and chemical modifications. This study section also reviews proposals concerned with aging, chemistry of molecular and genetic diseases, clinical enzymology, chemical aspects of immunology, cell surface, and membrane structure and function. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official, who also approves the agenda. A government official is present at all meetings.

PATHOLOGY A STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, July 10, 1946, as the Pathology Study Section. The study section was divided into A and B sections, September 26, 1961; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate August 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Pathology A Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to studies in areas of pathology, pathobiology, biochemistry of disease, or immunopathology, particularly where morphologic changes are correlated with biochemical or physiologic findings in idiopathic, experimental, metabolic, or cellular disease. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

PHARMACOLOGY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, July 18, 1946, as the Pharmacology Study Section. In 1953 the Pharmacology Study Section and the Experimental Therapeutics Study Section were combined, and the name was changed to Pharmacology and Experimental Therapeutics Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In 1965 the Chemotherapy Study Section was renamed the Pharmacology and Experimental Therapeutics B Study Section and the Pharmacology and Experimental Therapeutics Study Section added an A designation to its name. August 11, 1967, renamed the Pharmacology A Study Section. October 25, 1972, the name of the B section was changed to Experimental Therapeutics and the A designation was dropped. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate September 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 20 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Pharmacology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to drugs, their preparation, use, mode of action, metabolism, storage, and excretion. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

PHYSIOLOGICAL CHEMISTRY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, January 7, 1959; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate August 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Physiological Chemistry Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to chemical reactions that take place in the biological systems *in vivo* and *in vitro* and may deal with biochemical mechanisms of function, assimilation, transport, and metabolism as well as excretion of exogenous and endogenous substances in single and multiple cell systems. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

PHYSIOLOGICAL CHEMISTRY STUDY SECTION

PHYSIOLOGY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, June 17, 1946; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate August 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Physiology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the functioning of organs and organ systems, comparative physiology and basic physiologic principles aimed at an increase in information on the course and/or the mechanisms of normal processes. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

RADIATION STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, August 20, 1955, as a result of the reorganization and renaming of the Committee on Radiation Studies; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate October 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 17 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Radiation Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the fields of therapeutic radiology, radiation physics, radiation biology, radiation biophysics and chemistry, and radiation hazard levels. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

SENSORY DISORDERS AND LANGUAGE STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, April 23, 1962, as a result of the split of the Sensory Diseases Study Section into two groups; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary as the Communicative Sciences Study Section. Restructured and renamed July 21, 1982. This committee will terminate October 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 15 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Sensory Disorders and Language Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to (1) disorders of voice and voice mechanism; (2) processes of speech and language development; (3) neurological disorders of language comprehension and speech production; (4) tactile and somatic perception; (5) taste, smell and chemical communication; (6) sensory substitution technology; (7) rehabilitation of the speech handicapped. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

SOCIAL SCIENCES AND POPULATION STUDY SECTION

AUTHORITY

Originally established as the Population Research Study Section by the Assistant Secretary for Health and Scientific Affairs, April 20, 1971, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Revised, restructured and name changed to Social Sciences and Population Study Section on November 30, 1977. This committee will terminate October 31, 1985, unless renewed before date.

STRUCTURE

Consists of 17 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Social Sciences and Population Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to social science aspects of population, aging, and health problems. Proposed studies involve the use of sociological, demographic, anthropological, economic, and other social science methodology and involve the goals of assessing attitudes, values, beliefs, behaviors and interventions as measured by surveys, in-depth interviews, observations, experimentation, and various records focused on population, aging, and health phenomena. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

SURGERY AND BIOENGINEERING
STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, September 26, 1961, when the Surgery Study Section was divided into A and B sections; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Restructured and renamed Surgery and Bioengineering Study Section February 1, 1977. This committee will terminate October 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Surgery and Bioengineering Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to areas of thoracic and vascular surgery, general surgery and related bioengineering, biomaterials, bioinstrumentation and biomathematics, as well as the basic causes, mechanisms and effects of those congenital or acquired abnormalities, diseases and injuries in these areas which require surgical intervention. The members of this study section shall survey, as scientific leaders, the status of research in their fields.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

TOXICOLOGY STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, December 8, 1958; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate September 30, 1986, unless renewed before that date.

STRUCTURE

Consists of 18 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Toxicology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to the development of new analytical methods, antidotes and methods of treatment; metabolic products of poisons; development of poisons with selective action to replace substances that are made difficult to control; pesticides and their residues; insect susceptibility and resistance and related modes of action; forensic toxicology; drug poisoning of special toxicological concern; and effects of insect and animal venoms and the products of poisonous plants. Of special concern are the biological effects of chemical contamination of any part of the environment, such as air or water, by small amounts of chemicals that act chronically to produce deleterious actions in living systems. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

TROPICAL MEDICINE AND PARASITOLOGY
STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, in 1949 as the Tropical Medicine Study Section when the Malaria Study Section was merged with the Tropical Diseases Study Section; name changed to Medical Zoology Study Section in 1953; reestablished as the Parasitology and Tropical Medicine Study Section August 16, 1954; renamed the Tropical Medicine and Parasitology Study Section in 1959; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate August 31, 1985, unless renewed before that date.

STRUCTURE

Consists of 19 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Tropical Medicine and Parasitology Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to projects designed to increase knowledge and safe control of the myriad of parasites and vectors which cause disease in humans and animals in the tropics, temperate zones, and the arctic and antartic regions. The panel is also concerned with new developments in diagnosis and treatment of parasitic infections and diseases as well as the biological agents effective for control of vectors and reservoirs of infection. The study section evaluates proposals in which parasites and their hosts are unique model systems for basic studies in biochemistry, immunology, tumorous growth, immunopathology, genetics manipulation and physiology. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

VISUAL SCIENCES A STUDY SECTION

AUTHORITY

Originally established by the Director, NIH, May 22, 1962, when the Sensory Diseases Study Section was divided into the Communicative Sciences Study Section and the Visual Sciences Study Section; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; divided into A and B sections June 21, 1972. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate September 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 32 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are subdivided into two subcommittees and are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Visual Sciences A Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to research in clinical ophthalmology and in the areas of fundamental research (e.g., biochemistry, biophysics, pharmacology, embryology and development, physiology, and biomedical engineering) that provide the necessary baseline values for the investigation of ocular disorders including retina and choroidal disease, corneal disease, cataract, glaucoma, vasculatory disease, cancer of the eye, and environmental and occupational hazards to the eye due to chemicals, radiation, or high light intensities. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

VISUAL SCIENCES B STUDY SECTION

AUTHORITY

Originally established by the Assistant Secretary for Health and Scientific Affairs, June 21, 1972, when the Visual Sciences Study Section was divided into A and B sections, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate September 30, 1985, unless renewed before that date.

STRUCTURE

Consists of 16 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are selected from outstanding authorities in the specialized areas of health-related research which come within the jurisdiction of this particular study section.

FUNCTIONS

The Visual Sciences B Study Section shall advise the Secretary, the Assistant Secretary for Health and the Director, National Institutes of Health, regarding applications for grants-in-aid for research and research training awards and proposals relating to all aspects of the structure and function of the retina of all species with specific reference to histological, electrophysiological or biochemical techniques. They are generally directed towards an understanding of the fundamental processes of the visual sense modality. The members of this study section shall survey, as scientific leaders, the status of research in their field.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BIOTECHNOLOGY RESOURCES REVIEW COMMITTEE
GENERAL CLINICAL RESEARCH CENTERS COMMITTEE
GENERAL RESEARCH SUPPORT REVIEW COMMITTEE

NATIONAL ADVISORY RESEARCH RESOURCES COUNCII

AUTHORITY

Originally established as the National Advisory Research Resources Committee by the Surgeon General January 11, 1963, with the approval of the Secretary, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. Established January 1, 1967, as the National Advisory Research Resources Council by the Secretary under section 3(b) of Executive Order 11007, 27 FR 1875, pursuant to Reorganization Plan No. 3 of 1966, 31 FR 8855. Transferred from the Division of Research Facilities and Resources to the Bureau of Health Professions Education and Manpower Training January 1, 1969; transferred from the Bureau of Health Professions Education and Manpower Training to the Division of Research Resources September 18, 1970. Reestablished by the Secretary, July 23, 1971, under section 222 of the Public Health Service Act, as amended. In accordance with P.L. 92-463, chartered, January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Secretary or designee as chair, the Chief Medical Officer of the Veterans Administration or a representative, and a medical officer designated by the Secretary of Defense, who serve as ex officio members; and eighteen members appointed by the Secretary, HHS, who are leaders in the fields of fundamental sciences, medical sciences, or public affairs. Twelve of such eighteen are leading medical or scientific authorities outstanding in the fields of research and/or research training related to the programs of the Division of Research Resources. Six members are from the lay community, with expertise in program planning, university administration, management, and public information. Also consists of the following subgroups: Planning and Agenda Subcommittee, General Clinical Research Centers Program Workgroup, Biotechnology Resources Program Workgroup, Biomedical Research Support Program Workgroup, Animal Resources Program Workgroup, and Minority Biomedical Research Support Program Workgroup. Members are appointed for overlapping terms of four years, beginning November 1. Members may serve after the expiration of their terms until their successors have taken office.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, and the Director, NIH, concerning the Animal Resources, General Clinical Research Centers, Biotechnology Resources, Minority Biomedical Research Support, and Biomedical Research Support programs. Reviews applications for grants-in-aid relating to research and National Research Service Awards in these programs and recommends to the Director, NIH, the approval of those applications which merit support. Advises and offers guidance relative to the establishment and maintenance of ongoing evaluation studies and reports concerning any one or all of the above programs as they relate to or fulfill national or institutional needs.

MEETINGS

Meetings are held at least three times a year, as called by the chair, who also approves the agenda. A government official is present at all meetings.

ANIMAL RESOURCES REVIEW COMMITTEE

AUTHORITY

This committee resulted from the merger of the Animal Resources Advisory Committee and the Primate Research Centers Advisory Committee. The Animal Resources Advisory Committee was originally established on October 18, 1962, and the Primate Research Centers Advisory Committee was originally established on September 18, 1964, under Section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a. These Committees transferred from the Division of Research Facilities and Resources to the Bureau of Health Professions Education and Manpower Training January 1, 1969; and transferred again to the Division of Research Resources September 18, 1970. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary, and merged September 2, 1978, to form the Animal Resources Review Committee. This committee will terminate May 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 20 members, including two chairs, appointed by the Director, NIH, for overlapping terms of four years. Members are leaders in the specialized areas of veterinary medicine, laboratory animal and comparative medicine, anatomy, behavior, biochemistry, immunology, marine biology, genetics, microbiology, neuroscience, nutrition, pathology, physiology, primatology, reproductive physiology, zoology, fiscal management, and medical research administration. Consists of two subcommittees: the Subcommittee on Animal Resources and the Subcommittee on Primate Research Centers.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, and the Director, NIH, concerning applications for grants-in-aid relating to colonies of special research animals, development and definition of animal models, development and improvement of institutional animal resource programs, animal resource diagnostic laboratories, research projects to improve animal resources and regional primate research centers, and contract proposals related to the Animal Resources Branch programs. Advises the Director, NIH, on the development of scientific programs, facilities, and resources for laboratory animal medicine and research, on program development of the primate research centers, and on pertinent administrative policies.

MEETINGS

Meetings are held approximately five times a year, as called by the chairs, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

BIOTECHNOLOGY RESOURCES REVIEW COMMITTEE

AUTHORITY

Originally established as the Chemical/Biological Information-Handling Review Committee by the Director, NIH, on March 10, 1967, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; transferred from the Division of Research Facilities and Resources to the Bureau of Health Professions Education and Manpower Training January 1, 1969; transferred from the Bureau of Health Professions Education and Manpower Training to the Division of Research Resources September 18, 1970. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Amended February 9, 1977, renamed May 31, 1978. This committee will terminate May 31, 1986, unless renewed before date.

STRUCTURE

Consists of 14 members, including the chair, appointed by the Director, NIH, for overlapping terms of four years. Members are leaders in the fields of pharmacology, structural chemistry, molecular biology, computer sciences, biomedical engineering and related scientific disciplines.

FUNCTIONS

The committee reviews grant applications for the Small Grant Program for Pilot Projects, the New Investigator Research Awards, and Conference Grants submitted to the Biomedical Research Technology Program, and makes recommendations to the National Advisory Research Resources Council. The committee also advises on planning and evaluation activities, on development of new programs and program objectives of the Branch, and makes recommendations to the Secretary, the Assistant Secretary for Health, and the Director, NIH.

MEETINGS

Meetings are held approximately three times a year, at the call of the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

AUTHORITY

Originally established by the Director, NIH, April 28, 1961, in the Division of Research Grants; transferred to the Division of Research Facilities and Resources July 25, 1962; reestablished under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; transferred to the Bureau of Health Professions Education and Manpower Training January 1, 1969; transferred from the Bureau of Health Professions Education and Manpower Training to the Division of Research Resources September 18, 1970. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. This committee will terminate May 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 20 members, including the chair, appointed for overlapping terms of four years. Members are selected from leaders in the fields of clinical and basic sciences as well as university and hospital administration.

FUNCTIONS

Reviews applications for grants-in-aid for general clinical research center grants, and evaluates the research productivity of ongoing centers. As scientific leaders, members survey the status of research in their fields. Committee advises the Secretary, the Assistant Secretary for Health, and the Director, NIH, and makes recommendations to the National Advisory Research Resources Council.

MEETINGS

Meetings are held three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

GENERAL RESEARCH SUPPORT REVIEW COMMITTEE

AUTHORITY

Originally established as the General Research Support Program Advisory Committee by the Assistant Secretary for Health and Scientific Affairs, HEW, August 18, 1970, by combining the memberships of the terminated General Research Support Scientific Advisory and Review Committee and the Health Sciences Advancement Award Review Committee, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a; transferred from the Bureau of Health Professions Education and Manpower Training to the Division of Research Resources September 18, 1970. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary, and revised October 19, 1977. This committee will terminate May 31, 1986, unless renewed before that date.

STRUCTURE

Consists of 24 members including two chairs, appointed for overlapping terms of four years. Members are selected from authorities knowledgeable in institutional research support and development in general. Consists of two subcommittees: the Biomedical Research Support Subcommittee, which is composed of members who possess knowledge of the needs of institutions which are heavily engaged in health research, including medical schools, other health professional schools, graduate schools, hospitals and research organizations; and the Minority Biomedical Research Support Subcommittee, which is composed of members who possess familiarity with the needs of institutions serving minorities. Members of both subcommittees are selected from outstanding authorities knowledgeable in a broad spectrum of disciplines in the health sciences, basic and clinical, and fields of diverse institutional interests.

FUNCTIONS

Advises the Secretary, the Assistant Secretary for Health, and the Director, NIH, on the need for new institutional support mechanisms, assists in evolving necessary guidelines, advises on planning and objectives, and provides for the review of applications for grants-in-aid for such support. Offers operational policy advice for programs of the Biomedical Research Support Program, which includes the Biomedical Research Support Grant and the Biomedical Research Support Shared Instrumentation Grant. It also provides operational policy advice for the Minority Biomedical Research Support Program and reviews applications for the latter program.

MEETINGS

Meetings are held at least three times a year, as called by a chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

NATIONAL LIBRARY OF MEDICINE

BOARD OF REGENTS OF THE NATIONAL LIBRARY OF MEDICINE
BIOMEDICAL LIBRARY REVIEW COMMITTEE
BOARD OF SCIENTIFIC COUNSELORS, NATIONAL LIBRARY OF MEDICINE

BOARD OF REGENTS OF THE NATIONAL LIBRARY OF MEDICINE

AUTHORITY

Originally established August 3, 1956, by P.L. 84-941 (National Library of Medicine Act, 383 of the Public Health Service Act, as amended) 42 U.S. Code 277. In accordance with P.L. 92-463, chartered January 4, 1973, by the Secretary. Duration is continuing and will be rechartered every two years.

STRUCTURE

Consists of the Surgeons General of the Public Health Service, the Army, the Navy, and the Air Force; the Chief Medical Director of the Department of Medicine and Surgery, Veterans Administration; the Assistant Director for Biological, Behavioral, and Social Sciences (formerly, Assistant Director for Biological and Medical Sciences) of the National Science Foundation; and the Librarian of Congress, who serve as ex officio members; and ten members appointed by the Secretary. The ten appointed members are selected from among leaders in the various fields of the fundamental sciences, medicine, dentistry, public health, hospital administration, pharmacology, or scientific or medical library work, or in public affairs and from representatives of the general public. At least six of the appointed members are selected from among leaders in the fields of medical, dental, or public health research or education. Appointed members hold office for a term of four years, beginning August 4. None of the appointed members is eligible for reappointment to the same board or another council within one year after the end of his preceding term. The Board annually elects one of the appointed members to serve as chair until the next election, and the Assistant Secretary for Health designates a member of the Library staff to act as Executive Secretary of the Board.

BOARD OF REGENTS OF THE NATIONAL LIBRARY OF MEDICINE

FUNCTION

Advises, consults with, and makes recommendations to the Secretary, HHS; the Assistant Secretary for Health; the Director, NIH; and the Director, NLM, on important matters of policy in regard to the Library, including such matters as the acquisition of materials for the Library, the scope, content, and organization of the Library's services, and the rules under which its materials, publications, facilities, and services shall be made available to various kinds of users. The Board also performs a final review of proposals for support of training programs in medical library and other information sciences, medical library resources, research or demonstration projects, research by new investigators, research career development awards, research in biomedical information systems, special scientific projects, and biomedical scientific publications. The Board also advises on the development of a biomedical communications network through the support and maintenance of regional medical libraries throughout the country.

MEETINGS

Meetings are held three times a year, as called by the chair with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.

FOGARTY INTERNATIONAL CENTER

FOGARTY INTERNATIONAL CENTER ADVISORY BOARD

FOGARTY INTERNATIONAL CENTER
ADVISORY BOARD

AUTHORITY

Established by the Secretary August 31, 1984, under section 222 of the Public Health Service Act, as amended, 42 U.S. Code 217a, and chartered in accordance with P.L. 92-463. This committee will terminate August 31, 1986, unless renewed before that date.

STRUCTURE

Consists of the Director, Fogarty International Center (FIC), as chair, the Directors or designees of two NIH institutes with active international programs as ex officio members, and ten members appointed by the Secretary. Members shall be outstanding authorities knowledgeable in biomedical or behavioral fields such as clinical medicine, basic physiology, epidemiology, demography, immunology, nutrition, public health, health statistics, economics and sociology. They shall also represent infectious and nutritional diseases that present worldwide problems.

FUNCTIONS

Advises the Secretary; the Assistant Secretary for Health; the Director, NIH; and the Director, FIC, concerning applications for grants-in-aid relating to research projects, conferences, and research fellowships of international significance and on matters relating to the activities, programs, and mission of the FIC. The Board shall provide expert knowledge of the international health scene on how FIC professional and fiscal resources can most effectively be used to encourage and contribute to health-related biomedical and behavioral research and to improve the exchange of new knowledge and technology between the United States and participating foreign countries, institutions, and scientists.

MEETINGS

Meetings are held approximately three times a year, as called by the chair, with the advance approval of a government official who also approves the agenda. A government official is present at all meetings.
